Federation News

by Otto Crone
Haldimand Federation of Agriculture received a plaque at the CIAG annual policyholders conference recently in recognition of achieving 3,000 policies in our county.

The Federation of Agriculture started Co-op insurances as a service to farmers in 1949, in an attempt to hold the cost of insurances as low as possible. The company grew very rapidly and now is one of the largest insurance companies in Ontario. It is still controlled and directed by farmers.

Insurance is a major expenditure in the operation of cars and trucks. In view of our present accident rate and cost

The Jarvis Record, Thursday, April 20, 1972 - 11 at 5 mph results in damage of \$200.

Perhaps the best way to have insurance costs reduced would be for automobile manufacturers to build cars with bumpers that offer some protection in minor accidents which in the past did not result in claims.
