

Cottagers

Continued From Page 1 is shorter and simpler."

Mr. Nicklin said the WTCAA "want to know the reeve's viewpoint?"

Reeve Miller replied that the amendment "hasn't changed anything. The bylaw was put into effect in

1967. At that time there was little made either for or against it. We presumed the people were in favor of it. This change is for the protection of people." "What was the reason behind the change of the bylaw - so you can

keep people out?" asked Mr. Nicklin. "Perhaps this is one reason," said the reeve.

Reeve Miller noted the cottagers will have another chance to voice their opinions about the bylaw at an Ontario Municipal Board hearing.

A number of the audience questioned if the present definition was left in the bylaw, then would the cottage owners be able to keep on living at their cottages because "the bylaw is not enforceable?"

Reeve Miller replied that this would be true.

Last year in Cayuga provincial court a case was dismissed on the grounds that the cottage didn't fit the bylaw's definition and that it was a non-conforming use, having been lived in for more than six months prior to the bylaw's passage. Charges against three other people were withdrawn by the township.

The township council argues that the increase in cottagers is destroying the recreational value of the lakefront and further strains an already serious pollution problem. The lakefront cottagers also place a strain on other residents of the township because of the provincial assessment structure, the township feels.

One permanent resident, a farmer, Phil Hare, was shouted down at the meeting when he attempted to voice his support of the bylaw. He said later he was objecting to the township having to pay to educate the children of cottagers who were only paying between \$58 and \$158 a year in taxes.

Mr. Hare said farm taxes are triple those of the cottagers. Figures given at the meeting were approximately 73 children from the lakefront were being bused to area schools.

Contests were the next in entertainment, winners being Mrs. Thelma Atkins, Mrs. Jack Wood, Mrs. George Bassindale and Mrs. Wray Dennis. The wrapped gift was won by Mrs. Hartley Matice, Mrs. Hedges presented not only the grandmothers but all present with unique dolls which would be most attractive additions to the spice racks.

Mrs. Russell Hare made the courtesy remarks and the President closed the meeting with the Institute Grace and God save the Queen.

Association; Mrs. Lillian Brewster, representing the Winger Beach Cottagers Association and Robert W. Hewson, of the Cottage Owners (Walpole) Association.

Lamb's Corners WI

The August meeting of Lambs Corners W.I. was held at the lakeside home of Mrs. Clifton MacLean at Peacock Point. Mrs. George Hedges, convener, planned a special program and dinner meeting in honor of Grandmother's day.

The President, Mrs. Clayton Weaver expressed gratitude to Mrs. MacLean and welcomed 16 members and five visitors, all of whom answered the roll call. My first memory of Caledonia Fair or a pleasant memory of one of your grandmothers.

Correspondence was read and dealt with. Mrs. Osborne Lamb, sick and gift convener, reported having remembered Mrs. Craig Werner of Sanduski Branch who has been very ill in hospital. A bus trip was discussed but no decision reached. Mrs. June Allen, a former member now residing in Port Dover, extended an invitation to the group for the September meeting.

Mrs. Howard Nicklin, Mrs. Jack Wood and Mrs. Clifton MacLean were appointed as committee to arrange the forthcoming meeting when the Institute will visit and entertain the residents at Grandview Lodge Dunnville. The

Sanduski branch will be co-hostesses.

Mrs. Hubert Field prepared an interesting story of Caledonia Fair, this being its 100 year. This was read by Mrs. Howard Dennis. Mrs. George Bassindale gave the story of the Beef Ring once so popular in this county but now a thing of the past.

Mrs. Osborne Lamb gave a reading on Growing old gracefully and Mrs. George Hedges explained the making of a family tree, displaying a beautifully made tree done by Morris Hoover of Brampton. She also displayed a booklet, The History of the Hedges and Duxbury families.

Mrs. Russell Hare made the courtesy remarks and the President closed the meeting with the Institute Grace and God save the Queen.

SPORTS ROUNDUP By **PETE MYKE**

Intermediates Drop First Game To Wilkesport 4-0

The Hagersville Intermediates dropped their first game to Wilkesport on Sunday by a score of 4-0. This is one of the few times that this heavy hitting club has been shut out. Jim Herkimer with two hits, Larry Simon and Robby Johnson with one were the only batters to hit safely. This lefty Burgess had to be two speeds slower than the old rival Spud Chandler from Simcoe.

Burgess threw a slow curve, then a slower curve and kept the batters off balance all day. The visitors jumped on starter Paul Kett in the first inning after two out.

Four straight hits produced two runs and that was all they needed. Wilkesport added single runs in the third and fourth for their margin of victory.

Larry Cassidy relieved Kett and turned in a gutsy performance with a very painful shoulder. Hopy allowed just one run until he was relieved in the eighth. Bill Prince worked the last inning. The team travels to Wilkesport on Sunday for the second game with the third, if necessary, being played in Hagersville at a later date.

Summer Hockey Comes To End

The first season of summer hockey has come to an end for the Pee-Wee aged boys who played in Ancaster this summer. They played a total of 32 games and ended the season on a winning note. The last three games were playoffs in the form of a round robin.

Hagersville lost the first game of league playoffs to Simcoe last week but this series will not be resumed until after this round of O.B.A. action. Hagersville will hold a full workout on Thursday in hopes they can work out the necessary problems to come up with a win.

There might well be a bus going to Wilkesport on Sunday. Call Larry Atkinson, Bill Prince, Ross Slatore or Pete Myke for details. This game would never have been played except for the hard work of many individuals early Sunday morning. With the heavy rainfall Saturday night Vince Petracca formed a work party and got things in real good shape. You might also like to know that the money that was raised from the winter carnival and put to use at the ball diamond has been well spent.

The improvements are very noticeable and the park looks like the best around. Nolan's lunch wagon will be in attendance at all the future Sunday games and this should help people to get a drink or bite to eat.

Dorchester Leads Bantams

Dorchester took a one game lead in their O.B.A. playoff series by downing Hagersville Legion Bantams by a score of 9-2. This came as quite a shock to this writer as this is a sound, well balanced ball club.

Bill Winger started on the hill for Hagersville but got very little support from his teammates in the first three innings as the hometown team scored five unearned runs. It looked like the ride to Dorchester made the boys a little slow as they made five errors in the early innings. Dorchester made only two errors and their

in a real thriller. Dennis Smith scored twice as did Dave Mayor. Bryan and Scott Webber got one each with Bryan shooting the winner. Most of these boys come from Hagersville and Jarvis and will make the core of this winter's Pee-Wee Team.

Ron Mayor did a tremendous job with the boys and would like to thank all the parents who spent so much time driving back and forth to the games. The boys were treated to a wind up pool party at the home of Richard Anderson.

BEDROOM - KITCHEN LIVINGROOM SUITES

The footbone's connected to the headbone.

Think about it. When you play tennis, you wear tennis shoes. When you walk, you wear good walking shoes. And when you work you wear proper footwear for comfort and protection.

Take a good look at your shoes. Make sure they're not getting run down at the heel. Change fraying laces. And check the soles to see that they're in good condition. Sure footwork begins with proper footwear.

Self-defence. It works.
