

On The Farm Front

CAYUGA - Ontario Soil and Crop Improvement Association is sponsoring a Land Use Conference at Toronto on Dec. 12 and 13. Because of the limited number of people that can be accommodated, attendance will be by invitation only.

It is anticipated that the conference will assist in the development of a common approach to problems of Land Use across Ontario.

Haldimand delegates who will be attending include John McCombs, Neill Emerson, Dunnville, and Jack Young, Caledonia, from County Council. Don Campbell and Grant Richardson, Dunnville, will be representatives from Haldimand Soil and Crop Improvement Association.

Considerable interest is anticipated in the Farm Machinery Management Course to be offered by the Extension Branch as a part of the Board of Education's Night School.

Gordon Hill Heads OFA

Varna hog and white bean farmer Gordon Hill was re-elected president of the Ontario Federation of Agriculture at the OFA's annual convention on Nov. 28.

Hill will be the first to serve four consecutive presidential terms.

The Hamilton meeting also re-elected Port Burwell fresh fruit farmer Frank Wall, first vice-president, and Keith Matthie to serve as second vice-president. Matthie is a dairyman from Brockville.

On Nov. 29, farmer-directors elected Grace Stalker, Bath; Mason Bailey, Blyth; Bruce Taylor, Enniskillen; and Delmer Bennett of Forrester Falls to the other four executive posts. Both Bennett and Taylor have previously served on the executive.

The 476 farmers who attended the annual meeting represent the Federation's 12,227 individual service members. The OFA is Ontario's largest farm organization.

ool program. The course starts on Tuesday, Jan. 9 at Cayuga Secondary School at 7 p.m., continuing for 10 weeks. The course outline has been mailed to all Haldimand rural routes. Pre-registration has been requested.

Chairman Robert F. Thompson, Caledonia, and John Von Hugo, Cayuga, secretary, along with committee members of Haldimand Beef Improvement Association, most successfully hosted a recent meeting at Hagersville. Representatives from Norfolk and Brant Associations joined the large number of local beef producers. Brant County members had arranged an excellent program on the new beef grading system.

The energetic Haldimand Junior Farmers recently held a paint-

ing bee at Haldimand Agricultural Centre. They are congratulated on their enterprise in voluntarily helping to make this farm meeting place more attractive. This is but one of the projects that Junior Farmers of the county have undertaken to help meet the "Community Betterment", part of their motto "Self Help and Community Betterment."

Many soil test reports are now being received at the county agricultural office. These are the results of soil samples sent recently to the Guelph lab for analysis. At the county office the fertility requirements are translated into a fertilizer analysis and rate before the report is forwarded. Soil samples can be forwarded to Guelph at any time they can be taken before spring seeding.

Federation Facts

by Otto Crone
A farmer faces more risks than most people. Accidental injury or sickness can seriously affect his work and livelihood. And there's always the risk of injury or property damage involving others.

A salesman, buyer or friend may be injured while visiting the farm. A farm animal might stray and damage someone else's property. Farm equipment may injure others. Chemicals used in spraying may be carried by the wind to a neighbour's property ruining his crop. Legal action resulting from any of these occurrences could cost the farmer his entire savings, even his farm. Liability insurance protects the farmers against such a loss. A good farm family protection plan is available from Co-operators Insurance Association of Guelph. The Ontario Federation of Agriculture is a sponsor of CIA, which

has offices and representatives throughout the province.

The plan covers a farmer and his family against legal liability for death, bodily injury and property damage. It includes limited accidental death and impairment benefits for the family, and covers some medical expenses of visitors on the farm property or through the family's action.

It also provides coverage for certain farm animals killed in a collision on a public highway or railway right-of-way.

GAME OF FUN AND SKILL

Quick Shoot

Up to 4 'sharpshooters' can play! Consists of 4 spring-loaded guns, 16 marbles, sectioned plastic base, metal ball for score. Players shoot to target chambers, to win.

4.39

UNIQUE NEW GAME

'Wing-It'

Fun for all! Players load up their special launchers with chips and 'wing them' at a colorful backboard with set-up targets. One who knocks down the most targets wins.

2.98

EXCITING NAUTICAL GAME!

Don't Go Overboard

Floods of fun for 2 to 4 players. Object: to see who gets all his magnetized sailors aboard the ship first! (Some attract, some repel! If it repels, it's man overboard!)

2.88

NEW KOHNER GAME

'Tension'

A nerve-tangling, quick-action game for the whole family. Up to 4 players can play. And it's up to each to flip his discs into the right-color wells first. Good test for reflexes!

2.64

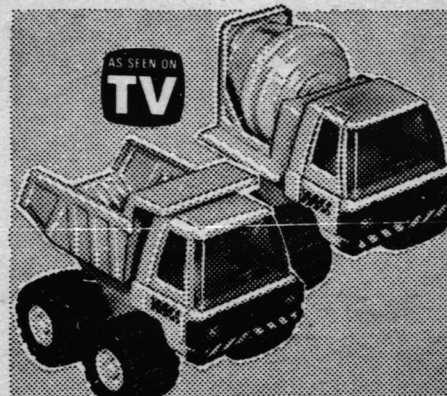

FOR LITTLE LAW-KEEPERS

Two-Gun Set

A double-holster set in 'Longhorn' design to excite small 'would-be' sheriffs. Pair of rapid-fire repeaters (metal cap-pistols), simulated leather holsters and badge.
