What is needed is a system that gives strength to the municipal government and for it to be effective in administration.

Present municipal structures can only work through "makeshift arrangements," he said. "They can only provide elementary services with either the province or special agencies (such as the health unit) providing other services.

"Thus the municipal council is weakened. It is unsatisfactory even now and hardly able to use its manpower effectively. And it is unnecessarily complic-

"However, the system is not all bad. Its small scale allows people to become actively involved in it. These are virtues that should be maintained. "Even if the advantages of present
