

Sandusk Women's Institute

Sandusk Women's Institute met at the home of Mrs. William Nicol. The meeting opened by singing happy birthday to the president. Letters were read from Mrs. Zoeller, chairman of WI - 75th anniversary committee and from Mrs. Noblitt, president of FWIO concerning the 75th anniversary luncheon to be held at the Royal York in Toronto.

Plans were made for the February meeting when the president and secretary of West Haldimand would be our guests.

An interesting food forum is to be held at Kohler, entitled a dollar worth of meat.

The roll call was well answered by recalling many memories of an

old timer who left a lasting impression. Mrs. Maude Barnes was program convener.

Mrs. Craig Werner gave the motto and Mrs. Merrill Nie told the story of the month of January, the snowdrop and the Garnet birthstone. Mrs. Barnes read some bits of wisdom and conducted a contest.

BUILD MORE SUBS
HAMBURG, West Germany (AP) - The Soviet Union is building three nuclear submarines for every one built in the West, says United States Admiral Charles K. Duncan, supreme allied commander Atlantic. The admiral said that the Russians will surpass NATO in their armament program by 1954.

Jarvis Women's Institute

The January meeting of Jarvis WI was entertained at the home of Mrs. Earl Stallwood on Thursday afternoon last, with the president Mrs. Robert Smuck presiding. Mrs. Sumner Church, secretary-treasurer, gave the financial report, read the minutes and correspondence. Cards of thanks were received from those who were remembered at Christmas time-the sick and shut ins.

Pictures were received from the WI's sponsored child Ho Poy in Hong Kong. The members were all happy to see these and to note the look of self reliance in her appearance.

The notice of the Provincial celebration of the 75th anniversary of the founding of the

Womens Institute was received. This will mark the visit of Mrs. Olive Farquharson, world president, from England and will be a dinner meeting at 12.30 on Feb. 12 in the Canadian room at the Royal York Hotel in Toronto. Fourteen-hundred tickets will be available at \$6.50 each. West Haldimand will sponsor a bus leaving Hagersville, the tickets not to exceed \$2. Those wishing to avail themselves of this trip would be wise to order their tickets before they are sold out.

The West Haldimand District recognition of the 75th anniversary will be held on April 19. Mrs. R. A. Miller reported from the committee meeting at the home of Mrs. James Nichol that this would be an evening banquet in Hagersville United Church Hall at 7 p.m. The Church ladies will cater a turkey supper at \$2.75 per ticket. These will be on sale shortly.

Mrs. Ross Dosser reported for the sick and gift committee. Mrs. James Duxbury thanked all who remembered them on the occasion of their Golden Anniversary.

An invitation was received to attend the results of a course A dollars worth of Meat at Kohler on Feb. 10 at 8 p.m.

The February meeting will take the form of a card party and bake sale on the 10th in the afternoon, at the Oddfellows Hall. Card conveners are Mrs. Ross Dosser and Mrs. Harry Belbeck. Bake table in charge of Mrs. Elgin Jaques, convener, Mrs. Sumner Church, Mrs. Duxbury, Mrs. Leonard Church, Mrs. James Brown, Mrs. Warren Keen, Mrs. Stallwood, Mrs. George Anderson, Mrs. Paul Bartlett.

4-H Club leaders for the project Dairy Fare are Mrs. Orville Walker, Mrs. Ted Montague and for the adult project Sewing with Knits Mrs. Leonard Church and Mrs. Paul Bartlett.

Mrs. Earl Marr convened the program starting with a contest, words made from Happy New Year. Mrs. Charles Oldham was the winner.

Mrs. Harry Belbeck gave the topic - The Story of the Garnet birthstone for January. The Roll Call was particularly interesting - name an old timer who left a lasting impression on you.

Mrs. Leonard Church showed particularly interesting pictures including their own family farm - vegetables, flowers, Christmas christenings, summer vacation at Lake Onaping, trees, spring and autumn - a most interesting story of family events over several years.

This was a really splendid review and included Achievement Day and the Sugar Bush at Peart's - showing the pancakes being made and eaten - a neighborhood project.

SEX DIFFERENCE

Adult male turtles are usually smaller than females and often have a longer tail and a turned-in lower shell as opposed to the flat or turned-out lower shell of the female.

This Local Initiatives thing...

What's in it for me?

nothing

The Local Initiatives Program is designed for community-oriented group projects. That means you've got to think "we" instead of "me". If you belong to an organization with an idea for a project that will benefit your community, you may be eligible for the Local Initiatives Program. And if you don't already belong to an organization, form your own group.

Work with your community, for your community. Do the kind of work that will satisfy you and at the same time, benefit others. So, by helping others, you help yourself. Sound interesting? All you need is an application form. Come to Canada Manpower and help yourself.

Editorial Comment:

Winter Carnival

Hagersville's second annual winter carnival is just around the corner now, scheduled to begin next Tuesday, and should provide a good mid-winter break for everyone.

Winter carnivals can be both fun and a success but they require the enthusiastic support of everyone. Only the best of winter carnivals survive and it can usually be found that the successful ones are the ones that are supported by the entire population.

Hagersville's winter carnival seems to have adequate organizational support with almost every group or organization in the village lending a hand in one aspect or another to get the carnival off the ground.

Now all it needs is the active participation of the people of the village and the surrounding area.

The list of events the winter carnival committee has organized is quite impressive and should provide an avenue of entertainment for the widest cross section of the community.

It will only be through the active involvement of the entire community that the winter carnival will have any chance of becoming a truly annual event.

Wise, Unwise and Otherwise

RELIGION AND SCIENCE

The conflict between men of religion and men of science is nothing new. For our purposes we might say that it began with Copernicus (1473-1543) who declared that the earth moved around the sun in opposition to the popular belief that the sun moved around the earth, which was thought to be the centre of the universe.

It is quite obvious that the people who lived in Bible times had this view; there is the story of the sun standing still at Ajalon in Joshua's day. And there is plenty of other evidence. Thus the idea that it was the sun, not the earth, that was the centre of the universe aroused immediate opposition.

Galileo, who lived about a century later, and had the use of the telescope, confirmed the findings of Copernicus and was attacked in the same way. Today, everyone accepts the Copernicus theory; even those who insist on a literal interpretation of the Bible accept it.

Today, of course, things are very different, even the age we live in is called "The Scientific Age" and science has entered into every aspect of our lives, from the discovery of insulin to cure diabetes, to putting men on the moon. Let me also remind you that your automobile, your TV set and your electric toaster are all products of scientific research. The world in which we live is almost totally different from the world that the Bible pictures.

Does this mean that the Bible is out of date, a quaint survival of the past, with very little to give us in this present age? Evidently, there are many who vigorously deny this, saying that the Bible is a book for every age, and actually Bible sales all over the world are very high. To us who still cling to the Bible, who believe in God as the Creator and who see Him as active in the world today, the scientist, whatever they may discover, are still simply "thinking God's thoughts after Him."

Dr. Pollard, a top scientist of the U.S. has written a book - "Science and Faith, Twin Mysteries," which is a scientific book dealing with religion. The thesis is that the more one probes into the make up of matter, into the aeons of space and time, into the intricate infinitesimal complication of living things, the more mysterious it all becomes.

The more one discovers the mystery of the created world, the more one is driven to the ultimate mystery of God. The scientist can probe and investigate, but he cannot explain why or how.

Counter Clockwise

20 Years Ago
January 17, 1952.

Reeve Alex Blackwell, of Caledonia, was elected Warden of Haldimand County at the inaugural session of the County Council at Cayuga on Tuesday. He was elected to the office by acclamation.

Reeve Blackwell has served as Reeve of Caledonia for the past six years and the waterworks system was installed during his tenure of office. This is the first time the honor of the Wardenship has gone to Caledonia since 1925.

A meeting has been called by the Village Council for Tuesday night, Jan. 22, at the Town Hall of the representatives of the Lions Club, Women's Institute and other organizations represented on the Community Hall Committees set up to make plans for the new community hall.

The meeting is called to discuss all phases of the question and it is hoped that all interested parties will be well represented to See Page 11, Col. 6

Winter with snow has its own special beauty as this photo taken last year at Port Dover by Record staff member Bob Byl shows.
