On The Farm Front

CAYUGA - An outline for valuation of farm assets has been prepared for distribution. The outline will help a farmer to arrive at valuation day values as required for Dec. 31, 1971. The resultant calculations should be as good as any arrived at otherwise and better than many. Copies of the outline are available at the county Agriculture Office.

Letter Box

To the Editor
West Haldimand Record
Dear Sir,

At the Aug. 25 meeting held in Nanticoke by Walpole Council, to acquaint property owners with the facts pertaining to the amendment to by-law 1421. Mr. Miller stated that council wishes to preserve the environment of the lake front.

Does Mr. Miller realize how much money we, on the lake front have spent building restraining walls with stone and cement to keep the lake from washing away that land which our council is so anxious to save for recreation?

Add to that the number of man hours involved and I think even Mr. Miller would agree that had council been paying the tab for material and wages, it would have been a very costly project.

Perhaps council would like to buy us out and, at the same time, reimburse us for all our work and expense.

This is election year for the Walpole Council and we on the lake front have been assured of a vote. Do we also have the assurance of better communication between council and ourselves? Have we been naive in thinking that council in the past, has been working in our best interest, or have some of its members had something else in mind?

Sincerely,
Mrs. Margaret Hodgkin,
R.R. 2, Nanticoke.
