Federation News

by Otto Crone
Whereas the content of the Highway Traffic Act dealing with the use of wide vehicles on roads is outdated, the farm safety committee of O.P.A. is making a number of recommendations that would update the act to fill farmers needs.

1) That a new, separate section of the Highway Traffic Act be developed which would regulate the movements of implements of husbandry, their movements on highways.

2) Such a section should deal with the definition of implements of husbandry, their movements on highways, permits, size, time of movement, lighting, etc.

3) Any implement up to 15 ft. should be allowed to be moved with a permit.

4) Movement of farm

implements be allowed on Sundays.

5) Movement of farm implements be allowed after dark.

6) For night movement, adequate lighting be specified.

7) That slow moving vehicle signs be compulsory.

8) That owner have proof of liability coverage before permit is issued.

9) Special permits be required for implements over 15 ft. in width, such permits be issued for daytime only.

10) The crossing of highways be done under the authority of a permit.

Without some of these needed changes, nearly every farmer, moving machinery on the road is a lawbreaker, that should not be necessary to farm with modern methods.

HAGERSVILLE MUNICIPAL TAXES

Starting In 1973, Hagersville Municipal Taxes Will Be Levied In FOUR INSTALMENTS

The FIRST TAX INSTALMENT will be an ESTIMATED INTERIM TAX LEVY of one-quarter of last year's mill rate (shown as seven mills). In the interim, Hagersville Council will proceed to prepare a budget, strike a mill rate for 1973 and pass the necessary by-law. The remaining BALANCE due in 1973 taxes will then be levied in THREE INSTALMENTS after Council strikes the mill rate, and will become DUE IN JUNE, AUGUST AND OCTOBER.

This practice is now being followed by most municipalities in Southern Ontario.

Art A. Roth, Clerk-Treasurer.
