

VILLAGE OF JARVIS Haldimand County ANNUAL FINANCIAL STATEMENT FOR THE YEAR ENDED DECEMBER 31, 1972

The Members of Council,
Inhabitants and Ratepayers of the
Village of Jarvis

We have examined the 1972 financial statements of the Corporation of the Village of Jarvis and its local boards, which are listed on the attached Index. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion these financial statements present fairly the financial position of the Corporation of the Village of Jarvis and its local boards as at December 31, 1972 and the results of their operations for the year then ended, in accordance with accounting principles generally accepted for Ontario municipalities applied on a basis consistent with that of the preceding year.

Protection to persons and property		
Fire	1,017.31	
Street lighting	3,101.25	

On The Farm Front

On the April 23 Corn Night program will be George Robinson of the University of Guelph speaking on "Experience with Corn Equipment." Mr. Robinson is in charge of farm machinery at the University Research Station. Participants in the night school course on Farm Machinery Management learned that George speaks quite frankly about his experience with different kinds of equipment. They felt that the larger audience at the annual corn night program held at Cowan's Farm Supply, Robinson Road, Dunnville, should have the opportunity to hear him.

Also on the corn night program will be speakers on Applying herbicide with nitrogen for corn, Production Information from Corn Competitions and Results of the 1972 Corn Harvest and Storage Cost Studies, Competitions and activities of the Haldimand Soil and Crop Improvement Association's Corn Committee will be outlined by chairman Glenn McCombs, Dunnville. All corn growers of Haldimand and area are invited to meet at Cowan Farm Supply, Dunnville, on Monday evening, April 23.

A sale of high indexing station tested beef bulls is planned for Saturday, April 28, starting at 1:00 p.m. at the Arkell Test Station near Guelph.

Gary Hutchison, University of Guelph, advises that when 1972 Income Tax is filed, farmers should be sure to keep assets purchased before 1972 on the straight-line depreciation method. All depreciable assets purchased on or after January 1, 1972, must of course be depreciated with the declining balance method.

Gary suggests that his proposal is likely to be to the farmers advantage financially even if two sets of depreciation records are required. If a 1972 income tax return is already filed he suggests that it would be possible to ask that

the return be amended. Bill Taylor, Seeds and Weeds Specialist with the Soils and Crops Branch, Guelph, has provided some clarification for farm custom spray operators. His advice is that custom sprayers applying herbicides to crops do not need a licence under the new legislation but they must be registered or enrolled with the Ministry of the Environment. The Certificate of Enrolment will be required to purchase the herbicides.

Easter Theme For Springvale U.C.W.

On the evening of April 5, President Mrs. Clarence Harvey welcomed 26 U.C.W. members and two visitors to our U.C.W. meeting in our new Church parlour. Mrs. Dalgault of Binkley United Church, Hamilton, brought with her, Miss Churchill, pastoral visitor at Binkley Church. Miss Churchill was a W.M.S. deaconess in Montreal for 20 years; then followed years of service in Kirkland Lake, Sault Ste. Marie and Winnipeg Churches.

Miss Churchill showed pictures of her visit to India this year, and told us a most interesting story of what she heard, found, and saw in India. She described very clearly the people, the work, the need and especially the time she spent in the 'Centre.'

We saw barren red soil turned into beautiful flower gardens, grain growing where never before, imported milk cows, etc.

The 'Centre,' in the mountains, which was built in 1968 and has been added to each year, is a place where people gather to learn, to teach and to do volunteer work by way of Conferences, teach-ins, seminars, etc. It is a very good place to learn how to help and love your fellow man. We appreciated very much Miss Churchill for sharing with us her enthusiasm, her joy and love for the peoples of India.

A meaningful worship service on the Easter theme was given by Mrs. Charlie Quitz with the singing of Easter hymns, and

Easter Theme For Cheapside U.C.W.

by Mrs. William Bray
The U.C.W. of Cheapside United Church met at the home of Mrs. William Crawley on Thursday afternoon April 12, with the president Mrs. Arvil Nie, opening the meeting with the hymn "Never Further Than Thy Cross." This was followed by prayer.

The roll call, an Easter verse was answered by 16 members with some fine Easter poems. Mrs. Ivan Whitford read the minutes and Mrs. Harold Marshall gave the Treasurers report in the absence of that officer.

It was decided to have a turkey supper after the anniversary services late in May. The May meeting will take the form of a work morning, packing a bale for the Harbour Mission in Hamilton, with a dinner at noon of dishes prepared as the people of India eat. The regular meeting will be in the afternoon. The offering was received and dedicated.

Mrs. Keith Schweyer gave a very interesting talk on citizenship, with a discussion on many of the important issues of our day. Mrs. Harold Nie and Mrs. Lloyd Fess were in charge of the worship service. They read a number of the Easter scriptures with suitable meditations for

Crooked Teeth Can Cause Digestive Problems

Most of us are aware that crooked teeth are unsightly. Some of us realize that the "buck" teeth of a teenager can lead to emotional problems.

But few people know that crooked teeth can cause digestive problems. If the upper and lower teeth do not meet properly, the person cannot chew his food properly. This also leads to decay because particles of food can't be dislodged from overlapping teeth. A good "bite" has a self-cleaning action.

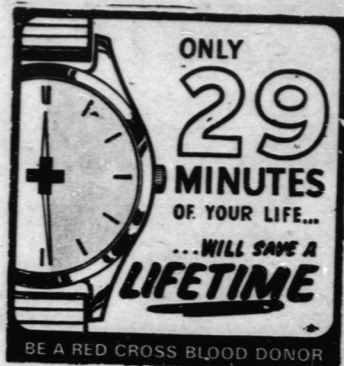

Pain in the jaw joints can be created by crooked teeth. The sad fact of this disadvantage is that the joint pains don't usually show up until years later -- when it is not as

easy to straighten teeth. Treatment can begin as early as 8 years old.

Crooked teeth can also cause speech difficulties. Combine these with the mental distress which often occurs with digestive upsets and you can have a major psychological problem.

Poor temperament from regular digestive upsets, shame from speech problems or unsightly teeth or chronic decay can seriously undermine a child's confidence. The day when people laughed good naturedly at the person with the Andy Gump chin and the buck teeth has gone the way of the Model T Ford.

DOJARS & GOOD SENSE

by WILLIAM J. MARTIN
Special Consultant to
Acco Financial Services

Last summer a handful of food editors in different U.S. cities decided to compare costs. This past summer the list of participating cities grew to 22, including three in Canada.

It was hard to rank the totals, city by city, because some of the items checked are not available in all areas, and in Canada, some sizes differ (as well as money). Generally speaking, however, Montreal and Vancouver ranked lowest, followed by San Diego. At the other end were Omaha and San Francisco.

Each editor sampled three stores for the survey. On this past June 29, the survey date, these were some of the going prices.

A five-pound standing rib-roast that cost \$4.95 in Chicago, went for \$7.65 in Honolulu. A dozen large grade A eggs ran from 33 cents in Tampa to 61 cents in Vancouver and 62 cents in Honolulu.

What did you pay for a five-pound bag of potatoes? If you lived in Portland, Oregon, they would probably have cost 45 cents, but in Cincinnati, the tab would likely have been 82 cents.

The wide price fluctuations dramatize the importance of shopping carefully for food (as well as everything else). Even in the most expensive city, there were plenty of bargains and vice versa.

To be a smart shopper, you have to know the competitive prices and be able to tell if a "special" price is really a bargain or not. It takes effort if you want to do it right.

Readers' questions are welcome and should be sent to Box 5875 London, Ontario.
