munity to make more use of the school. He also said any function would have to be governed according to Liquor Control laws.

Mr. Crawford was against the proposal because he doesn't think it is fair to allow adults to do anything they want to do in the gym and

then turn around and have a "shoe check" when the students are using it.

It was pointed out at the meeting that the Board would probably turn down any request if there were other facilities in the area which could cope with a large crowd.

No Burden

Continued From Page 1

Ours should stay," he said.

At the last council meeting, Deputy-Reeve Norm Crawford reported that the hospital wanted the radio out.

"The girls are upset . . . Either we keep the radios in or they're out," he said. Council consulted with the Ontario Provincial Police but they are not interested in acting as an answering service.

Hamilton is after the large industrial assessment which would come to the area once Stelco is in operation at Nanticoke.

"Hamilton wants it and Norfolk wants it," he said. "They are not interested in the people of Haldimand - it's strictly money."

Mr. Austin is against both a Haldimand-Norfolk region and a Hamilton-Wentworth-Haldimand region.

Walpole reeve, Gordon Miller thinks "Hamilton is stepping out of line."

"The Warden spoke for the county. I'm not excited about Norfolk (union), but I think we're more compatible."

Cayuga reeve Ken Best said he hadn't had too much reaction from the people in town and he didn't want to make a personal comment.

However, he said, area people "are not too anxious to consider regional government under any circumstances."

He felt the people would feel overwhelmed by the larger population of the urban area and "resist the suggestion."

LIP Projects Announced

G. R. Williamson, Manager of the Canada Manpower Centre, Simcoe, announced that 15 jobs have been created through the approval of two Local Initiatives grants. Federal contribution totals \$35,621.

DELHI HOME HELP, sponsored by the Knights of Columbus, will assist senior and needy citizens in Delhi and the surrounding area with repairs to homes, travel for medical purposes, and assist in worthy community betterment. This project will create 23 weeks of work for 9 persons. The sponsors will receive a Federal grant of \$24,332.

A second project, HISTORY OF WATERFORD AREA, sponsored by the Waterford and Townsend Historical Society, will conduct research into the history of this part of Norfolk. The sponsors hope to collect information that would otherwise remain unknown to area residents. This project will involve 6 persons for 16 weeks, with the Federal government contributing \$11,289.

Both projects will be hiring unemployed persons through the Canada Manpower Centre.

The Local Initiatives Program was introduced as a job-creating program for the winter of 1971-72, and was so successful the Federal Government announced a new program for 1972-73. It is being administered by the Department of Manpower & Immigration. Applications for grants have been arriving at the Canada Manpower Centre since early in November. No

applications were accepted after December 31, 1972, and all projects must be completed by May 31, 1973.

In its first year LIP created more than 92,000 jobs and most of them went to people who would otherwise have been on unemployment insurance or welfare.

The requirement that projects should "contribute to community betterment" resulted in an improvement in the quality of life in cities, towns and villages in all parts of Canada.

Welland Acid Spill Cleanup Complete

The cleanup work in the wake of a December 1 train derailment that spilled 1,500 tons of sulphuric acid near Welland is essentially completed, the Ministry of the Environment announced.

Farm fields affected by the spill have been checked frequently since the spill and experts from the Ministry and the local Medical Officer of Health's staff say there has been no change in water quality.

The Local Initiatives Program aims at creating additional employment by encouraging and enlisting the participation of Canadians in initiating and carrying out new programs in the community.

Financial support is provided in the form of contributions to private persons, groups, community organizations or municipalities to assist them in carrying out programs consistent with the objective of the program.

Water in local residents' wells has been checked frequently since the spill and experts from the Ministry and the local Medical Officer of Health's staff say there has been no change in water quality.

Farm fields affected by the spill have been checked frequently since the spill and experts from the Ministry and the local Medical Officer of Health's staff say there has been no change in water quality.

Truck Kills Horse

"Twilight", a standard bred gelding, was killed instantly Sunday when it was struck by a pick-up truck on Highway No. 3 near Renton.

A spokesman for Simcoe O.P.P. said the truck, driven by Ernest Dosser of R. R. 1, Port Dover, received \$300 damages.

The black gelding was Mrs. William Kinkel's of R. R. 5, Simcoe, riding horse.

Mrs. Kinkel said the horse and pony broke down a gate and escaped. "Twilight" was killed instantly by the truck and then another car ran over him, she said.

Value of the horse was estimated between \$200 - \$250.

example, he said, "Open the door and where do they go. Straight down."

"It's (the town situation) getting a little shaky. We've been awfully lucky but it's not going to last," Mr. McClarty said.

He's given up making fire inspections - except for the two nursing homes - "because there's no point."

"Can't do anything until we have a by-law," he said.

Federation News

by Otto Crone

On Feb. 1st the Ontario Federation of Agriculture met with the provincial cabinet and presented its annual brief. This year it was 20 pages in length covering many problem areas, such as land use planning, assessment and taxation, farm labour, corn marketing, capital grants, succession duties and lakeshore protection - just to name a few.

The rising level of the great lakes and severe damage to land and crops that was caused by storms last fall, make lakeshore protection an urgent matter for immediate attention. Engineers estimate that the water levels in the great lakes will be higher this year than it has been in the past 70 years. With this

fact known and every year having its storms, this will mean millions of dollars damage to prime shoreline farms, if proper protection against the waves is not taken.

The O.F.A. strongly urged that the Ontario government pressure the federal government to take part in a federal-provincial financing scheme to improve and maintain flood dykes and to improve protection where necessary to prevent Ontario lakeshore from flooding.

Sandusk News

by Mrs. Wm. Bray
Terry Nie is still a patient in St. Joseph's Hospital in Hamilton.

Sandusk W.I. met at the home of Mrs. William Bray on Thursday evening for their regular meeting.

Miss Kathy Gloyd spent Saturday with her cousins Debbie and Sherri Dennis.

Mr. Bill Werner of Toronto and Mr. Dale Werner of London both spent the weekend with their parents Mr. and Mrs. Craig Werner.

Mr. and Mrs. Robert Marshall spent the weekend up North.

Mr. Floyd Nie visited his cousin Alan Werner on Sunday.

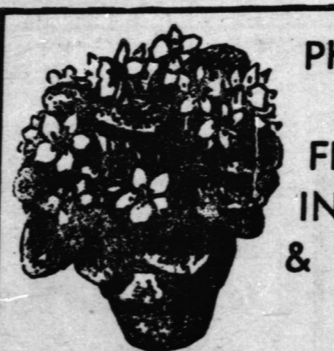

The Messengers held their meeting and Valentine party at the home of their leader, Mrs. Bray on Saturday afternoon.

The 4-H girls started their new project on Saturday.

Mr. and Mrs. Les. Burton and Carol Ann were supper guests of Mrs. Bray on Sunday.

Mr. Klaas Mueller has returned from a trip out west.

During the past week, 13 accidents involving injuries to seven persons were investigated by members of the Cayuga Detachment. One person was charged with ability impaired. Snowmobile safety cannot be too greatly emphasized at this time of year, particularly with our present mild winter weather. As evident in various newspapers, several persons have drowned in the past few days as the result of operating snow machines on rivers and lakes when the ice is just not solid enough. Please confine your snowmobiling activities to solid ground, it may save your life.

Theatre Workshop Held At H.S.S.

A Theatre Hour Group (five actors) recently held a workshop at Hagersville Secondary School to teach acting

techniques to two Theatre Arts classes. These classes were split into groups of

seven or eight so that each actor of the Theatre Hour Company could have a small group to teach.

At first the students exercise to loosen up, so that many of the moves in acting could be performed without hurting themselves. One such exercise would be to sit down cross legged and try to touch your knees to the floor. The teachers always made sure that the students were completely relaxed while doing these exercises and often they would make them shake their hands and legs to take out any tension.

Most of the last hour and a half of the session

was spent trying to be totally relaxed. The acting teacher would have them lie on the floor relaxed and then they would have the students imagine all kinds of images, colours and things to do. This part of the class went well.

Perhaps more important than the class itself was what the actors taught the students about acting. Acting is much more than remembering a set number of lines. It is being able to imagine things and convey your emotions to the audience. Acting is a field of work where being physically fit and being yourself is also important.

Hugh Greenfield, building inspector for Walpole Township, estimates that two million tires are located on Lot 1 Concession 14. Council is presently investigating the fire hazard this mass of rubber presents. (Staff Photo)
