

\$12,000 Tractor Pull Planned

One of Canada's most unique sporting events will headline an action packed weekend at Cayuga International Speedway July 20, 21 and 22.

Friday will see the top drivers in the late model Super Stock machines compete for valuable points in the \$5,000 Red Cap points fund as well as the \$10,000 combined Red Cap points fund.

The popular Three Quarter Can-Am midget auto racers will make their second appearance at Cayuga this year as a supporting program to

the late model Super Stocks. The Mini Stox, for tiny imported European sedans will also be on the program.

The midgets are single seat, open wheeled race cars capable of fantastic speeds and will compete on the 1-6 mile track.

The 1-6 mile track uses part of the main straight of Cayuga's larger 5-8 mile circuit.

The Can-Am drivers are a club of more than 100 men from Canada and the U.S., they race on a tour basis in both countries.

The National Tractor Pull Association will sanction a \$12,000 contest at Cayuga International Speedway for tractors that will sport engines capable of up to 1,000 h.p.

The event is the only one of its type in Canada and will bring stock, modified and Super Stock tractors from all parts of North America to Ontario's Cayuga International Speedway.

The normal every day tractor will be seen in action, but the big interest will be with the

special machines. Some have Allison aircraft engines, Army Tank powerplants, big block supercharged auto engines, you name it, they probably have tried it.

The various classes are based on the type of modifications, weight and type of engines used, safety requirements are enforced as are the many technical rules.

The first of two day's of action in the \$12,000 N.T.P.A. contest will start on Saturday at 1 p.m. The event will see

a second session starting at 7 p.m., Saturday night.

Sunday will start at 1:30 p.m. Making Canada's only Tractor Pull a complete weekend with three separate contests.

A tractor pull is an event that pits a tractor against a special unit that will increase its weight load as the tractor pulls it along. The harder the tractor must work, thus the finishing positions will be scored on the distance each tractor pulls the unit.

Failed To Stop

NANTICOKE - A charge of failing to stop has been laid against a Hamilton woman after the car she was driving left the Lakeshore Rd., east of here Sunday, and went into the ditch.

Dorothy Boyce has been charged.

She was driving east on the road when the mishap occurred. The car was owned by Harold Jarvis, of Hamilton. The woman was treated for minor injuries and released from West Haldimand General Hospital, Hagersville.

Const. Ken Hawkins, Cayuga OPP, investigated the mishap reported at 3:55 p.m.
