

New Area Fire Agreement Drafted By Hagersville

The Hagersville Volunteer Fire Department and Hagersville Council have jointly settled on a set of terms for the area's new fire agreement.

The contract requests a stand-by fee of \$1500 from Walpole and

Oneida townships and \$750 from the New Credit of the Mississauga. All three are serviced by the Hagersville firemen.

In addition, the agreement asks for a fire rate from all three municipalities of \$150 for

the first hour and \$100 per hour for each additional hour or part thereof up to a maximum of \$450, but with no time limit on the attendance at the fire.

Under an old Mutual Fire Agreement, which

OMEA President Says Elected Reps Are Losing Influence

Port Dover - Elected politicians in Ontario are losing influence while civil servants are becoming more powerful, Ernest Alexander, president of the Ontario Municipal Electric Association, said Thursday.

Mr. Alexander was

discussing the Ontario Government's new energy proposals with members of the association's District No. 5, which covers the counties of Welland, Haldimand, Wentworth, Brant and Norfolk.

The OMEA represents about 350 municipal electric commissions throughout the province.

"The Ontario civil servant has an unrivaled knowledge of the administrative process," said Mr. Alexander.

"He guides the development of laws and rules under which he works. He knows his way around the corridors where things get done."

Mr. Alexander questioned whether the public interest is being served best by "tipping"

Break-In At Fifth School

Four schools in Haldimand County have been hit by vandals during the past three months. Last Thursday, a fifth school was broken into.

Wayne J. Rick, 22, of Brantford and Brian C. Dioci, 24, of Hamilton were charged with break and enter at Walpole North Elementary School, a Cayuga O.P.P. spokesman told the Record Tuesday. A third person escaped.

The new addition being built on Parkview Public School in Hagersville is almost completed. At last week's Board of Education meeting, the property committee reported that this new section should be ready for occupancy by September 5th. (Staff Photo)

Public To Help Determine Transmission Line Route

"In the near future, Ontario Hydro must start building 500,000 volt lines to carry electricity from Nanticoke Generating Station to the London area to form an integral part of our power grid system," Colin Hendry, Public Relations Of-

Rodeo Held In Jarvis

Bicycles of all sizes, shapes and colours filled the Jarvis Community Park Saturday morning for an area bicycle rodeo.

Approximately 100 boys and girls from Jarvis, Hagersville, North Walpole and South Walpole participated in the competition conducted by Bert Bell of the O.P.P. and Warren Burger, chief of the Hagersville Police.

Prize winners at the rodeo, which was sponsored by the Jarvis Lions Club's Boys and Girls Committee, are as follows:

Boys - 1st, Guntis Rungis; 2nd, Stan Heaton; 3rd, Danny Fredrikson; 4th, Doug Fess; 5th, Bruce Fleming.

Girls - 1st, Jennifer Bill; 2nd, Chris Verri; 3rd, Sandra Druyff; 4th, Debbie McBride; 5th, Sherry Whitbread.

ficer told the Record. "We need the public's help in selecting the route for the transmission lines. Similar studies are underway in other parts of Ontario to establish routes which will link up our generating stations at Lennox Generating Station, near Kingston, Pickering Generating Station on Lake Ontario, and the Bruce Generating Station on Lake Huron," he said.

Ontario Hydro is going to visit as many communities in Haldimand-Norfolk Counties

as possible during July to tell the people of each area how Hydro intends to approach the selection of the new route. Ontario Hydro wants to involve everyone if it can. We want each person's ideas and cooperation.

Visit Jarvis

The Ontario Hydro trailer, an information office on wheels, will be in Jarvis on July 3 and 4, 1973. Ontario Hydro hopes that it can get as many people as possible to drop into the centre and to talk with

Citizens Must Decide Community Hall Future

The Hagersville Community Centre could be renovated into a fine four bay fire hall, fire chief Bill McClarty told Hagersville council Monday night.

But, he said, the firemen would like the general public to be aware of this suggestion and public opinion sought.

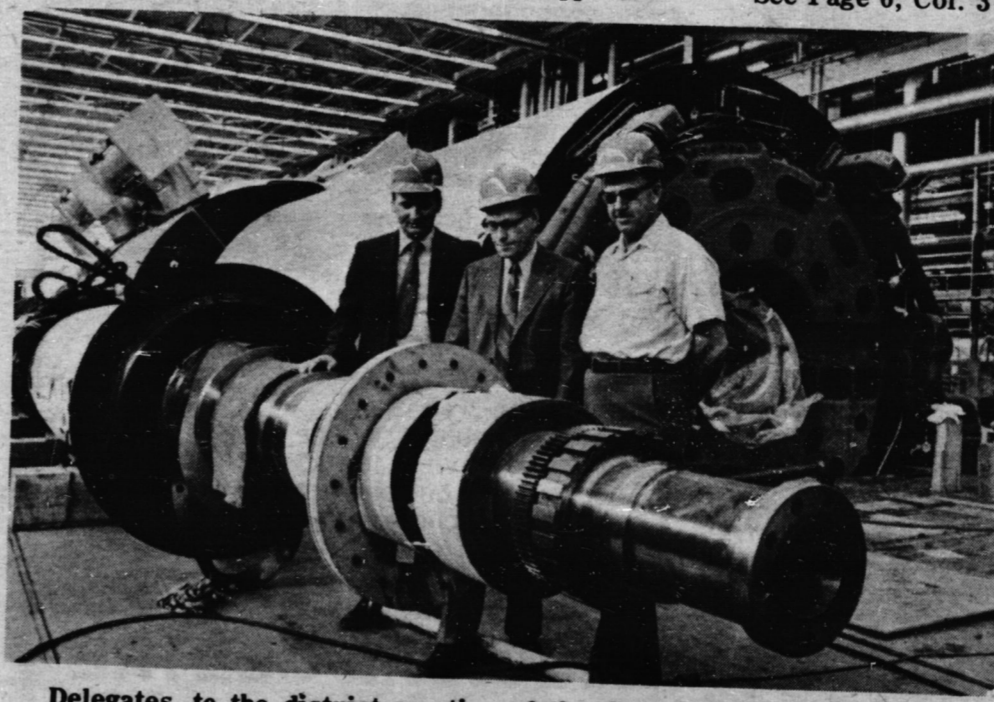

Mr. McClarty estimated that the Centre could be turned into a four bay fire hall with paved parking lot, storage area, meeting room, kitchen and washroom facilities for approxi-

ately \$20,000. The Centre is already equipped with many of these facilities which the present fire hall lacks.

Mr. McClarty said the doors could be put in the south side of the building, the rifle range kept as is, the floor taken out, dropped two feet and paved, a tower put in next to the building and the siren could be left downtown.

Hagersville village fathers agreed to look into the matter and that a general meeting should be held to hear
