company showing the extremely deteriorated condition of the eight lines in question.

He said cost of line eplacement would be prohibitive and this undertaking by the company would be inprudent. Mr. O'Connor also

offered a fair market value for appliances and they were reasonable in their approach to have consumers change over It will be at least a

month before the Energy Board announces a de-At Monday's hearing,

Ontario Energy Board heard testimony from 12 Union Gas customers who are opposing the application.

Some of the witnesses called by Mr. Chambers signed agreements with the company, but wished to change their minds Mr. Chambers asked

the board to hear these customers because he said some agreements were signed by the wrong person or under some form of duress and therefore were not proper documents.

suggested the "should hear board them on the question of tactics or methods," Union used and determine the validity of some of these agreements. He also requested the board to hear witnesses living on gas lines not presently before the board.

Mr. O'Connor argued that the Energy Board does not have the jurisdiction to determine whether contracts are valid, nor does it have

the jurisdiction to make a decision on a line not before the board.

After taking a brie recess to discuss the matter, A. B. Jackson chairman of the board said it was not within the board's jurisdiction to hear people who signed agreements as to the validity of the agreements . However, he ruled that the board was prepared to hear from those as to the reasonableness of compensation terms. Also, people on other lines could testify in relation to compensation terms.

Witnesses repeated similar stories of being offered \$100 for a propane tank and \$15 for conversion of each gas unit. Several also produced estimates showing their cost of conversion to a desired alternate fuel being much higher.

Weight watchers enjoy diet foods and other reducing agents made from wood cellulose.

World Championship Series drag racing action for the National Hot Rod Association's Northeast Division moves into round two this weekend (May 19-20) with a \$25,000 points meet at Cayuga's Dragway Park near here. The rich event, part

of NHRA's 35-race World Championship Series schedule for 1973, is the second of five slated for the Northeast, and has drawn an outstanding field of more than 400 entries for the two days of competition which will feature National record runs and qualifying on Saturday and again Sunday morning, leading up to the 2 p.m. Sunday finals.

Similar schedules are underway in each of NHRA's six other geographical divisions across the U.S. and Canada, where toprated drivers are battling for divisional and East/West Conference points that will advance them to Amarillo, Tex., in October for a shot at the sport's World championships.

The 35-race series carries an overall posted purse of more than \$1 million.

Heading the list of standout entries at Dragway Park is Dale Thierer of Mohnton, Pa., currently the hot-test fuel dragster driver in the Northeast Thierer won the opening divisional WCS race two weeks ago and has taken a commanding
