ROUNDUP**

By  
**PETE MYKE**

**Juveniles Lose  
First Game Of  
O.B.A. Finals**

The Hagersville Legion Juveniles lost the first game of the O.B.A. finals on Monday in Clinton when they dropped a close 6-5 decision. Wayne Johnson started for Hagersville but wasn't real sharp as the home team raked him for 13 hits. Along with two walks and two errors this gave the winners all the runs they needed. Clinton scored a run in each of the first two innings and two in the 3rd. They scored what proved to be the winning runs in the 6th. A single and an error at short put two men on. Another single scored a run, but the throw from the outfield got a runner at second. A fly ball scored the 6th run. The centre fielder for Clinton had a big day at the plate with two doubles and a single as he drove in three runs.

Hagersville scored twice in the second inning. Paul Fryett led off with a single but was forced at second by John Montour. Randy Curran slapped a single and both

boys trotted home on a long triple by Johnson. Jim Vanni singled in the 3rd with none out but died on third base. In the top of the 6th Hagersville made it 4-3 when Vanni doubled and scored on Fryett's single. In the 8th, Vanni got his third hit of the game and Danny Donato walked. John Montour then doubled to score both boys.

Hagersville threatened in the 9th as Johnson walked and moved to second on McKee's sacrifice. Darrell Watson reached first on a missed third strike and went all the way to second as the catcher was slow in getting the ball. Dean Webb who has had a miserable playoff, struck out to end the game. If Dean can regain his form in the field as well as at bat, the team can still pull this off.

There is a rumour the team will be without Vanni's big bat as he will be off to play hockey this weekend. The next game of the series will be here this Sunday starting at 4 p.m.

**New Spud Sensations  
Cheese Mashed Potatoes**

Looking for a good vegetable dish to serve to a crowd? Cheese Mashed Potatoes could be your answer. Our recipe for creamy mashed potatoes seasoned with sharp Cheddar cheese and freshly chopped onion is great for a buffet or family gathering. A perfect dish with any entree, consider serving it with baked ham, beef, poultry, lamb or fish. "Are potatoes fattening?" you may ask. The answer is "No, not in themselves. It's what you add to them that accounts for a high calorie count." In fact, potatoes should be included in a reducing diet because they have a lot of vitamins and minerals. One baked potato (100 grams or 3 1/2 ounces, edible portion) provides merely 93 Calories.

**Cheese Mashed Potatoes**

- 3 pounds (about 9 medium) potatoes
- 1/4 cup butter or margarine
- Boiling water
- 1 tablespoon salt
- 1 cup hot milk
- 1/2 teaspoon pepper
- 1 cup (4 ounces) shredded Cheddar cheese
- 2 tablespoons finely chopped fresh onion

Pare and quarter potatoes. Place in saucepan with 1 inch boiling water and salt. Cover and cook until soft, about 15 minutes. Drain. Turn into large mixing bowl and mash well. Add hot milk, pepper and butter and beat until fluffy. Add cheese and onion. Mix well. Serve hot.

Makes: 10 servings.

**Port Colborne  
Downed Harvesters**

The Jarvis Harvesters were pushed to the sidelines by Port Colborne in Jarvis on Saturday night and thus ended their hopes of a provincial title. Last year Jarvis captured the all Ontario Intermediate 'B' championship.

In the first game of the series Hub Fehrman pitched magnificent ball but still lost 1-0 in 15 innings as his mates couldn't get any runs for him. Here on Saturday night he picked up where he left off in Port Colborne and shut out the opposition for the first two innings before running into trouble.

Four hits and an error gave the visitors four runs in the 3rd and saw coach Harry Reekie lift Hub in favor of Nick Pantzouri. Pantzouri gave up a run in the 4th and two in the 6th

on one lone hit as the Jarvis crew couldn't find the handle on the ball at times or just made the wrong play. A single by Gord Fearman and a double by Fred McKeen gave Jarvis one run in the 4th before McKeen came home on an error. Ted Phibbs who hit the ball well all year, poked a long home run in the 5th but the Harvesters could never get closer than two runs.

Pantzouri tripled in the 7th and scored on Dennis Craddock's fly ball. Fearman had two hits while Phibbs, Bill Prince, Hub Fehrman, Pantzouri, McKeen and Barry Miller picked up the other hits. With the team moving up to class 'A' ball it showed that you have to be sharp all the way and make big plays when they come up.

**Pee Wees Split  
Games On Weekend**

The Hagersville Pee-Wees played a heck of a good game on Saturday as they ousted Dorchester in the third and deciding game of that series 3-1.

Randy Davey pitched his second straight win of the series and kept the Dorchester team off the bases with his great control. Roger Webb, Brian Salvatore and Scott Winger got Davey all the runs he needed. Salvatore was the winning run and it was a good thing the boy stayed home from the wedding as he played a good game.

**Car Theft**

JARVIS - Keith John Taylor, 19, of R. R. 1 Simcoe, has been charged with car theft following a crash on Highway 6, south of here, on Saturday.

The car, driven by Taylor, was northbound when it rolled over in a ditch. It received \$100 damage and no injuries were reported.

The car was owned by Michael Kennedy, of 255 Robinson St., Simcoe. It was reported stolen from the Water St. area in Simcoe.

**Blues Bow Out**

The Hagersville Blues dropped two straight games to Harrow 8-1 and 4-2 here at home on Sunday. The first game was no contest up in Harrow but here Sunday the boys put up a real struggle before going down 4-2.

Ross McKeen pitched a neat five hitter, but the Hagersville team made five errors with two of them being costly. Harrow scored three runs on three of their hits in the third inning along with a Blues error. McKeen could have been out of the inning with only one run being scored if not for the error. Harrow got their last run in the top of the 9th on a strange play. The catcher lined a ball

against the fence in left field that Petracca thought bounced over for a ground rule double, but all the while it laid inside the fence as Stephens circled the bases.

The Blues scored a run in the first inning and may well have had two more, but some erratic base running cost them at least two runs and possible five in the first four innings. Robby Stewart blasted a home-run over the fence in deep left centre for the second Hagersville run and this is all the team could get. Stewart had a double to go with his homerun and Frank Vecero, Jim Cote and Danny Forbes had the other hits.

**Bantams Down  
Orono 16 - 6**

The Hagersville Legion Bantams continued on their winning ways Sunday when they trounced Orono 16-6. It was a close game until the 6th when the heavy hitting of Hagersville broke the game wide open. The Legion crew got four runs in the 6th and added six in the 7th. The game ended in the 8th when the umpire ejected an Orono player and the visiting coach had used up his entire bench and there was no other players to go into the game.

Darrell Watson swung the big stick for Hagersville, getting four. Phil Nie had three as did Mike Montour. Mike Liscombe had a triple and single with Ralph Awde, Richard Salvatore and Billy Winger getting one. Winger worked the full game but was not as sharp as usual. Bill struck out eight and walked one, while allowing 12 hits. The team made five errors as well. Salvatore made a good

**On The Farm Front**

The Soybean Tour and Silage Additive Meeting starts at 7:30 p.m. on Tuesday, September 11 at the farm of Larry Brenzil, York. Larry's farm is just over one mile east of Highway 56 at Empire.

During the evening, the several soybean varieties will be seen and discussed. Dr. Bruce Stone of the Animal Science Department, Guelph, will present information on using silage additives to cut protein costs. Samples of the different products such as Nitrosil, Prosil and Ursil will be on display along with equipment for application. Haldimand Soil and Crop Improvement Association invites everyone interested to be in attendance.

A Soil and Crop bus tour to Oxford County will be held on Friday, September 14. Calls will be made at Pioneer Corn Research Trials at

Woodstock and at Crop Improvement projects on several Woodstock area farms. The bus leaves Dunnville at 8:15 a.m. with pick ups at Cayuga and Hagersville. Return around 5:00 p.m. is expected. Crop Improvement members and others have been asked to book a seat on the bus by September 11.

The Urban-Rural Exchange of 12 to 15 year olds is completed again for another year. According to Lois Legg, the co-ordinator for Haldimand and Niagara, there were nine Haldimand, nine South Niagara farms that hosted urban young people during this year's exchange. The urbanites were from cities in Hamilton and Toronto. Lois is enthusiastic about her experience with the program and hopeful that more farm families will, in the future, open their homes

to urban youth and allow their own children to experience a few days in the urban setting.

According to revisions announced by the Crop Insurance Commission, hay crop insurance will be applied for in September and October with final date for application on November 1. For a cost of \$1.25 per acre a production guarantee is given by the Commission. The crop would be insured against all natural hazards including winterkill. If the yield falls below the production guarantee the difference in yield is paid for by the Commission at \$20.00 per ton.

Final date for crop insurance on winter wheat is within 10 days of the completion of seeding but no later than October 20.

**THIS WEEK**  
from Ottawa

**Soybean Exemption**  
Canada has been exempted from the embargo imposed by the United States, July 2, on exports of soybeans and soybean meal - considerably increasing the amount available to Canadian importers.

**Prairie Wheat Crop**  
Canada's wheat crop this year is expected to exceed the 1972 crop by 72 million bushels. Wheat pool and government officials in the Prairie provinces have estimated that the wheat crop could be as high as 590 million bushels, compared with 513 million bushels last year. Estimates on other grains indicate production this year will not be much different from 1972.

**More Jobs**

The federal government is planning to spend \$100 million to relieve unemployment this winter.

Manpower and Immigration Minister Robert Andras announced that \$83 million has been allocated to the Local Initiatives Program and \$17 million to the Federal Labour Intensive Program.

The minister said "the primary objective of these federal job creation programs is the reduction of high seasonal unemployment and high regional or area unemployment."

**Consumer Protection**  
Health and Welfare Minister Marc Lalonde announced a new information policy whereby the department's Health Protection Branch will

release more detailed information or potential health hazards to the public from foods, drugs and certain other manufactured products.

The new policy will also inform the public of government actions to withdraw or suspend sales, of seizures, and of refused entry into Canada of hazardous products.

**Parliament Recalled**  
Parliament was recalled from its summer recess to end the nationwide rail strike. The government and the opposition parties will take this opportunity to enact measure to deal with the rising cost of living situation in Canada.

**Liberal Convention**  
The Liberal Party of Canada is holding its biennial convention in Ottawa, September 14, 15 and 16.

Delegates from across the country will meet to discuss Party programs and policies.

**What To Do When Your  
Freezer Stops Working**

At this time of year, flash storms often account for power failures which may cause endless problems for the freezer owner. Food specialists at the Ontario Food Council, Ministry of Agriculture and Food offer sound advice as to whether to refreeze or discard the food in such an emergency.

The general rule "don't refreeze" appears on most commercially frozen food packages and is still the best advice. However, foods which you have frozen and have partially thawed, including vacuum packaged meat such as bacon, ham and weiners, can be safely frozen if there are ice crystals still present. This rule also applies to fruit, fruit pies, fruit juice concentrates, meat, poultry, fish, vegetables

and "boil in bag" vegetables. What is the fate of food which is completely thawed, but still very cold to the touch? It can all be safely refrozen, with exceptions. The first exception is vacuum packaged "boil in bag" vegetables which should be removed from their original package, cooked and eaten immediately or removed from the package, cooked, repackaged and refrozen. Another exception is commercially frozen soups requiring no further cooking. They should be discarded.

Food held at room temperature (68 to 72 degrees F) for not longer than two hours, such as meat, poultry and vegetables should be cooked immediately and eaten, or cooked and refrozen. Vacuum pack-

aged meat and fish should not be refrozen. Instead, cook immediately and eat. Home-made soups should be heated thoroughly and eaten, or heated and refrozen. Fruit, fruit pies and fruit juice concentrates can be safely refrozen.

If a fully loaded freezer stops operating, food will stay frozen about two days. Food in a partially loaded freezer will stay frozen for one day. If your freezer will not be operating within one or two days, place dry ice (25 to 50 pounds) in the freezer to hold the temperature down for 2 to 4 days.

Dr. B. E. Fernow was the first dean of the first university Faculty of Forestry in Toronto in 1907.
