What's New At The Cayuga Library

More than a hundred new titles in children's Books, too many to list have arrived at the Cayuga Public Library, along with dozens of fiction and non-fiction books for adults.

Several periodicals are being received regularly, including McCall's, Chatelaine, Cosmopolitan, Consumer's Report, Better Homes and Gardens, and Home Decorating Magazine. National Geographic and Sports Illustrated are on order.

Individuals or groups who like to use films should make use of the catalogues at the library.

Hundreds of films from the National Film Board and the Niagara Regional Library are available free of charge usually on a 24 hour loan. The librarians, Mrs. Folville, Mrs. Abercrombie or Mrs. Stallwood are at your service thirty-five hours a week and will be happy to help you locate films on any topic. It takes about a week to get the films, so come into the library in lots of time, or call 772-5726.

SUPPORT

Patti Huschilt and Patricia Montague were prizewinners in Jarvis last week. (staff photo)

Jarvis Yoga Bears Meet

The Jarvis Yoga Bears started meeting seven with the 4-H pledge.

Mary Doughty read the minutes from meeting six which were adopted by Irene Martin.

We were given our clip binders and bears for cover. Linda bought a magic marker and we used that to do our

writing on the cover. For our roll call we did an exercise and did our home assignment.

The Exhibit Committee told and showed us roughly what we would use. They will have another meeting to finish off our Exhibit.

It will be Nov. 6th at 7:30 p.m. at Chris Mitchell's.

The treasurer reported \$2.65.

We will have a bowling party but are not sure on the date yet.

We are to have our books at Linda's by Nov. 10th.

Donna read over some paragraphs on poise and body language. We did a few exercises on posture. We then had lunch and the meeting broke up.

Using electricity wisely isn't just a matter of avoiding waste.

Being watchful to avoid the frittering away of kilowatt-hours is everyone's concern, in the interest of economy and conservation of valuable energy resources.

But for some people, living in older homes with outdated wiring, restricted use of appliances is not always a matter of choice. They do not have sufficient circuits to serve normal needs without resorting to 'octopus' outlets and extension cords. The result: overloading and blowing of fuses.

These conditions also tend to diminish the performance of appliances and shorten their life.

Inadequate wiring is not only inconvenient, it can be a safety hazard. If you have any doubts about the capacity of your home's wiring have it checked by a qualified Electrical Contractor.

Then, use electricity wisely... and safely.
