

Haldimand Board Establishes Policy On Delegations

The Haldimand Board of Education established a policy last week to govern delegations wishing to make a presentation to the Board.

In the Director's report, trustees were told it is necessary to keep the lines of communication open.

Most problems relating to schools are satisfied at the school level, the report stated, and others are directed to the administration and are resolved by letter, telephone or visit.

At times, however, ratepayers may wish to present their concern directly to the Board or to one of its Committees.

The Board approved the following policy.

"A delegation wishing to make a presentation to the Board shall make its request in writing to the Director of Education. The request should contain the following information: (a) the topic to be discussed (b) the identity of the spokesman.

"The Director will discuss the request with the Chairman following which he will be in touch with the sponsor of the request to arrange the time for presentation."

Also at the Board meeting:

The official enrolments for September 30, 1974 on which Board grants are calculated are Elementary - 5,105 and Secondary - 2,914.

The Board is watching the developments in the Jarvis, Caledonia, Hagersville and Cayuga areas. The following are projected, but will only become activated when the expansion of the community warrants it: Jarvis Public School, (new) Caledonia Secondary School, Remodelling of Caledonia High School for an elementary school, an addition to Parkview School, an addition to J.L. Mitchener Public School, new elementary school in Caledonia, addition to Jarvis Public School.

The damaged gym floor at H.S.S. has been repaired.

The Board has decided to build a metal clad building on the southeast corner of the Educational Services site in Cayuga at a cost of \$10,000.

The Department of Transportation and Communication inspected buses operated by Heaslip Motors Ltd., Robert Lindsay Motors and Farr's Coach Lines as well as a few others this month.
