

## New Teachers In Jarvis

Jarvis has two new teachers in its midst; one at each of the village's two elementary schools.

Lois Goddard, a grade four teacher from Dorset Drive School in Peel County, is teaching a grade four - five class at Jarvis Public School.

And Don Hepburn, a University of Western Ontario and London Teacher's College graduate, is instructing at the Jarvis District Christian School.

This is the tenth year of teaching for Mrs. Goddard who trained at Toronto Teacher's College.

She is living in Hagersville with her husband, who is the new Music Department head at Cayuga Secondary School.

Since she is from a small community, Mrs. Goddard told The Record she isn't having any difficulty in adjust-

Lois Goddard

## Sandusk Personals

by Mrs. William Bray Mr. and Mrs. Jim Hoover and David moved from the apartment at Murray Stewarts where they had lived to house on Highway 3 a week ago. Other tenants have moved into the Stewart apartment.

Dale Werner of Fanshawe College spent the weekend with his parents.

Mrs. Herman Kleefisch's sister from

Germany is visiting with them.

Mrs. Ralph Heastont has been busy this past week improving their home while on a week's holiday.

Mr. and Mrs. Harold Bray and Daryl called on Mrs. William Bray Sunday afternoon. Mr. and Mrs. Les Burton and Carolann were her Sunday supper guests.

## Friends 'n Neighbours

Jarvis Calorie Counters are holding their first meeting of the season tonight in the basement of the municipal building.

Mrs. James Duxbury hosted the Jarvis W.I. in her home yesterday afternoon.

Dr. Bruce Bowyer was guest speaker at the Jarvis Unit of the West Haldimand Hospital Auxiliary meeting in the Presbyterian Church last night. He spoke on dental health.

Many from the area attended the auction sale held on the Edwin J. Gibbons farm, north of Jarvis on Saturday.

The Jarvis Lions Club held a successful dance in the Community Hall Friday night.

The first 4 - H Club meeting "Take A Look At Yourself" was held last Thursday under the leadership of Linda Church.

Kelly Montague is teaching piano for anyone interested.

The Buttons and Bows Pre-School is reopening in Hagersville on Monday.

Cathy More is home from France and visiting her parents, Mr. and Mrs. Rusty More of Main Street, Jarvis.

Cathy has just completed her second year as an English Language teaching

exerciser.

We then elected officers and they are as follows:

President: Mary Lou Nixon; Vice-President: Theodora McKenzie; Secretary: Ruth Hobbs and Press Reporter: Wanda Lynne McKenzie.

Mrs. Fess asked the roll call and all girls answered. We then had a short discussion on "Your Image". We were told that we were to bring our mothers to the fifth meeting.

Mrs. Fess told us our Achievement Day is on Saturday, November 23 and our books are to be handed into her before November 11th.

assistant at Nan Terre University in Paris.

During July and August she was in England teaching English to French children on holiday there.

She will be leaving Jarvis again for Paris September 25th.

Mabel King returned home Monday night, September 2, from a lovely trip to Wheeling, West Virginia. She visited friends, Mr. and Mrs. Ralph Moore, and went to the Truckers Jamboree Saturday night at the Grand Ole Opry.

On Sunday she attended the Truckers' Jamboree Expo at Wheeling Downs and saw Buck Owens.

She talked in person with Buck Owens, his stars and band group that perform on Hee Haw and other county and western personalities.

In the meantime, please continue to send in your news items to our office by mail or phone. This is a column for you.... by you.

Dr. W. E. Austin, former reeve of Jarvis, has changed his address from Madoc, Ontario to R.R. #1, Corbyville.

The Record is still in need of a person to take responsibility of our Friends 'n Neighbours column. We welcome any fresh new ideas.

## Elections Again

Elections are getting to be old hat for Nanticoke and Haldimand voters.

We trudged through the snow last year to vote in our new regional government.

One hot humid day this summer we travelled to the polls to elect our representative to Ottawa.

And once again this December we will be off to the polling stations for yet another vote.... This time to choose our representatives on the Board of Education.

It may seem a little early to start reminding you about this third election, but December 2nd is only 82 days and a sure three Board meetings away.

Potential candidates must consider whether to run, evaluate their reasons, make their intentions known and judge whether they have anything concrete to offer the educational institution.

Present trustees have some soul searching to do also. They must evaluate their contributions (if any) to the system and whether they made a dent in their post. They must decide whether they have in the past and can continue in the future to work for the students, teachers and public with objectiveness, fairness and intelligence. And they must evaluate whether they really offered something to the system during their past term or just filled a chair.

The big onus, however, falls on the voter. It is up to him to make the final right decision.... for not only will the responsibility for good or bad actions lie with him, but also the resulting bills.

A voter should not be casting a ballot on December 2nd if he has not taken the time prior to that date to assess each candidate's capabilities and learned their views on various aspects of Board responsibility.... Bus Transportation, Salary Negotiations, New Curriculum, School Maintenance and Repair, Building New Additions on Schools, Teacher - Staff - Public Relations, Budgets, etc.

While it is good for everyone to sit in and see how their Board operates during a public meeting (third Tuesday of the month at 8 p.m. in Cayuga for The Haldimand Board), this will be of little assistance to the voter who is evaluating his present trustee since most discussion and decision making is done in committees. Committee reports are simply read at the public meeting and usually passed without discussion.

So the voter must seek out his present trustees and all new candidates in order to learn which one should be put in office and whether they will do a good job.

## Wise, Unwise and Otherwise

by The Old Owl.  
WAS WORLD WAR I A MISTAKE?

To most of us the word "Victorian" stands for something that is stuffy, reactionary and small "c" conservative, but it seems that this view is not accurate.

Queen Victoria greatly loved her husband, Prince Albert, and he was a man of liberal views which she adopted. Together they set out to introduce democratic ideas in other countries of Europe, beginning with Prussia. (Germany).

The ruler of Prussia, Wilhelm I, was an autocrat who believed that he ruled by divine right and to whom the very idea of democracy was abhorrent. He had a son named Frederick who was not married, and Victoria and Albert planned to marry their daughter Vicky (Victoria) to the Prussian Crown Prince. She was quite willing to do that and hoped that when Frederick came to the throne they would introduce their ideas of democratic rule. Unfortunately old Wilhelm did not die but lived to be 91. Frederick and Vicky had a son who did not share his father and mother's views but followed the way of his grandfather. They were strongly supported by a great statesman named Bismarck.

Vicky and Frederick were obliged to sit on the sidelines and watch their son destroy any attempts they might make to bring democracy to Prussia. During this period of waiting Frederick, the Crown Prince, developed cancer of the throat which made things more difficult for Vicky, as she mentioned in the letters she wrote to her mother, Queen Victoria. Wilhelm I lived to a ripe old age and then Frederick became Emperor. He only reigned for 100 days and then died. He was succeeded by his son. His name was Wilhelm II and was "The Kaiser" who was crushed in World War I. Had his father, Frederick III lived, there might never have been that world wide war.

## Counter Clockwise

January 2, 1936.

Mr. and Mrs. James Davidson quietly celebrated the forty-fifth anniversary of their marriage on Tuesday, December 31.

Mr. and Mrs. John Wodham of Walpole celebrated their 25th year of marital happiness Tuesday.

Mr. A.C. Porter's flock of New Hampshire red pullets were given their blood test last week and have a very high record as a clean flock.

Winners in McBride's Rexall Contest were: Girls - Lois Pond, Gloria Willis, Shirley Reicheld, Helen Leng, Dorothy Vokes, Dorothy Dosser, Margarite Fess, Lois Church, Agnes Yallop, and Eleanor Schwyer.

Boys - Leslie Mitchell, Morley Taylor, Tony Stallwood, Bill Williamson, Bobbie Stone, Ronnie Marshall, Jack Dosser and Melvin Porter.

Miss Eileen Marshall was confined to her home a few days this week as the result of an injury to her ankle while practicing with the Port Dover Ladies' Hockey Club.

January 16, 1936. While engaged in cutting down a tree in front of his home, Mr. J. Butcher had the misfortune of having a limb strike the ladder, forcing him to fall approximately 15 feet to the ground.

Neighbours gathered at the home of Mr. and Mrs. Roy Mitchell Thursday evening to honour Mr. and Mrs. Gordon Budsell with a farewell party before they returned to their former place of residence near Hagersville.

Watch for further particulars of the monster ice carnival to be held in the Jarvis Arena on Jan. 17.

I would respectfully request all residents of this Village to immediately have their chimneys inspected for their own safety and to avoid the disaster of conflagration. Yours respectfully, W.J. Elliott, Fire Chief.

In Port Dover Parker Bros. twine house with

club name and the colours we wish to use, as well as a full-length snapshot of ourselves and an emery board and orange stick.

Meeting was adjourned by Mary Doughty. A lunch was served and the meeting was later dismissed.

We then opened the meeting with the 4-H pledge, and had the election of our officers.

They are as follows: President: Mary Doughty; Vice-President: Irene Martin; Treasurer: Susanne Bousfield.

Since we will be having a rotating secretary, the press reporter will also be whoever happens to write the minutes of the meeting.

Our second meeting will be on September 24th at 7:30 p.m. We decided to have our meetings on Tuesday evenings at Linda's home.

We were then given our Roll Call for meeting one, which was: one basic item for beauty and good grooming that is indispensable to me.

Linda told us that Achievement Day would be November 23 and that our books had to be in by November 10.

Our assistant leader, Shirley Blackwell led us in a discussion and then Linda explained what our image consisted of.

We are to bring to our next meeting a cover suggestion and design.

A Haldimand Soil and Crop Improvement Association bus trip to the Georgetown area is planned for Tuesday, September 17. Calls are to be made at the Master Feeds Crop Research Station and at the Crop Demonstrations at the 1974 International Plowing Match site.

Bill Hodgson, Haldimand and area Farm Labour Pool Manager, reported recently to the local board. Board members were quite impressed with the number of requests and placements made to date. In addition to the general farm labour requests, it would appear that dairymen are definitely intending to make use of the milking relief service offered.

Dr. Les Young of the Animal Science Department, University of

Guelph, advises that for hog feeding barley has about 90 percent of the value of corn. In other words a hog ration based on barley will take about 10 percent more feed to get the same results as a ration composed of corn. Dr. Young is a strong advocate of farmer mixed rations of corn, soybean oil meal supplemented with vitamins and minerals.

It is hard to believe but in the most recent one year period imports to Canada included almost seven million pounds of alfalfa seed, four million pounds of Kentucky bluegrass, over seven million pounds of seed corn along with lesser amounts of many other kinds of seed. Most of the imports were from U.S. sources.

Don't wait for spring. Control warbles now and save cattle the discomfort and losses that they would suffer from now until spring. Systemic insecticides should be applied between now and November. Treatment with a spray dust or pour-on liquid should be made according to label instructions. Costs vary from 20 to 60 cents per head.

ON THE

FARM FRONT

Haldimand Rain Recorders report a considerable variation in the amount of rain during August. Many parts of Haldimand had less than one inch of rain while other areas benefited from showers that brought their total to about two inches.
