## Jarvis Lions Club

Ho. Ho. Ho. Didn't we have a good meeting on Dec. 8 when the Jarvis Lions met at the community hall to welcome our Sunshine Club members at our regular get-together.

Lion Harold Johnson did a fine job of introducing these senior citizens of which 36 were present. Wilfred Krouse thanked the ladies for a very fine meal placed before us, and president of the Sunshine Club, Clarence Smith thanked the Lions with some well chosen words re the clubs work in the community.

Lions from Langton and Tillsonburg were also in attendance and they, along with the rest of us, enjoyed the toe tapping music supplied by the musical family of the Hishon children (four of them) who played music reminiscent of the times when our own Sunshine folks were doing some sparking of their own. The proud parents are Mr. and Mrs. Toly Hishon who come to this area from St. Catharines. Lion George Miller is to be commended on his choice of entertainment for the evening.

A thank-you letter was read from the Hagersville Skating Club thanking us for a donation given to them by the Club. Lion Murray Walker reported on a Zone advisory meeting held earlier; and Lion Ted Montague reported that the Minstrel show would be held on Feb. 26, 27 and 28 and that the first rehearsal is to start on Jan. 5.

I bet no one knew that we had a club within our club,

but as it turned out we found out that this is a 'I hate to give up a quarter club,' and at the moment the membership is quite exclusive. Any way, those members involved all participated in the manner in which it was intended and weren't those prizes something - Hot Dog! Well done, Dennis.

Ten Lions splashed down to participate in the Santa Claus parade held in Cayuga on St. Dec. 13. We didn't see Santa but wouldn't be surprised if his sleigh runners had non-toons. If you think we were a bunch of old socks, we sure were. Yes, it rained.

Saturday, Dec. 13 was a very busy time in Jarvis for Santa, when, through the aises of Lions, Bill, Norm and Vaughn 'gave' out 100 turkeys and a free one (door prize) to Diane Dosser of R. R. 1, Jarvis.

And of course, as most of you know, the Paul's got it all when Paul Beischlag and Paul Harrop won the \$2500 boys and 'Pretty' Nicky Montague sold the winning ticket. For the non-winners there is always next year. Thank you to all of you who bought tickets and also attended our Turkey raffle, your donation is much appreciated and will be used for projects in the community.

And the reason the cow jumped over the moon was because the farmer had cold hands.

Merry Christmas and a Happy New Year to one and all from the members and wives of the Jarvis Lions Club.

CONSIGNMENTS WELCOME

"OPEN ALL DAY SATURDAY"  
ESTATES BOUGHT AND SOLD  
TEL. 443-8894 TEL. 587-2632Lambs Corners  
Women's Institute

The Christmas meeting of Lambs Corners Women's Institute was held at the home of Mrs. Wm. Lamb, with 14 present. The president, Mrs. Clayton Weaver opened the meeting.

A donation is to be sent to the Christmas seal fund. The roll call was "Bring a favorite Christmas Card, and tell why." Plans were made for a Christmas party, which we are catering, in the Jarvis hall on Dec. 20.

The Lambs Corners Women's Institute presented a refrigerator to the secretary of the Cheapside Community Hall board, for use in the hall.

All enjoyed singing Christmas Carols and two Christmas contests were conducted by Mrs. Wray Dennis. The winners were Mrs. Wm. Lamb, Mrs. Ted Marshall and Mrs. Clayton Weaver.

The motto "A picture is a poem without words," was well given by Mrs. Hubert Field. Mrs. Wm. Lamb showed pictures of a recent trip to the West Coast. These were much enjoyed by all.

## Afghan Winner

The Afghan Draw sponsored by St. Paul's Ladies Club was won by Mrs. Muriel Buckley of Jarvis. We thank all ticket purchasers and a special thanks to Mr. Jack Cooke for his co-operation and the use of his store.

Santa Claus arrived, while we sang "Jingle Bells", and each received a lovely Christmas gift.

Several boxes were filled with Christmas treats, to be taken to shut-ins in the community.

The next meeting is to be held at the home of Mrs. Jack Wood on Jan. 19 at 1:30 P.M.

POLICE  
REPORT

## LEATHER COATS STOLEN

Two leather coats were stolen during the past week, one from the Explorer Inn, Jarvis, on December 7 and one from Kohler Agriculture Centre on December 9.

## FIRE TO COVER THEFT

A residence on the Cranston Road in City of Nanticoke was broken into on December 7. Investigation revealed culprit(s) removed a portable television and to cover entry a fire was set.

Three residences in the Town of Haldimand were also broken into on December 9.

Two male persons from Hagersville have been arrested and charged breaking, entry and theft, in connection with the above four break-ins. Search warrants were executed on the two accused residences which resulted in recovery of the stolen property. The two accused admitted to seven break-ins in our area and two break-ins in Simcoe OPP area.

## Obituary

## Cheryl Frances Cox

Entered into rest at Henderson General Hospital, Hamilton, on Wednesday, December 17th, 1975; Cheryl Frances Cox, beloved youngest daughter of Charles and Peggy Cox of R. R. 2 Nanticoke; Wendy (Mrs. Win-Stanley), of Jarvis, in her 24th year. The funeral took place on Thursday, December 18th, from Miller's Funeral Chapel, Caledonia. Interment Caledonia Cemetery.

## COLLISIONS

During the past week, 20 motor vehicle collisions were investigated with two persons being injured.

## Down Home Log Cabin

A pungent smell of smoke curling into the air from the chimney outside, enhances your eagerness to make your way to the door "lift the latch string and walk in" to Clark's Log Cabin. Matched by the hospitality of the host and hostess inside you are greeted and given an old-fashioned rocking chair seated in front of the open fire place. As you bask in the glow of burning logs of wood

you are warmed by a steaming hot cup of coffee graciously served by Coral.

Coffee has been brewed in a huge granite coffee pot hung on the crane and kept hot from the warmth of coals in the fire place. Hugh takes an iron from its place on a stand near by and stirs up the wood as he adds and keeps adding more wood. There is warmth in the fire and warm hospitality as you chat round the open hearth. You can't sit and dream, for while you are enjoying your hot coffee, Hugh saunters over to his musical instrument, a Melodian, and "strikes up a tune".

The sound of music that floats on the air, then a tune follows on the Zither, a stringed instrument resembling an Auto Harp, which Hugh is learning to master. Now you are in tune for a relaxing chat with a lesson on antiques - how acquired and where they have come from. You are sure to see something you haven't seen before. It might be a stone from Arizona, hollowed by repeat-

there you have a primitive way of grinding corn for daily use. It might just be your Lucky Day when you get a lesson on Hugh's special way of making candles with a warning no one can make his kind unless he tells you how! It's a feat alright! We are glad for the know how, even though we may never have Hugh's knack of producing candles that burn without smoke or run all over the place. Hugh lights a primitive candle on the wall as he talks.

If you have been there before, your interest may not be a tour of the house or inspection of antiques. With other visitors present, conversation turns to the good old days with history of the Erie canal, building of ships that sailed the rivers, canals and streams old houses at Lowbanks, with Walpole's adobe brick and Tonawanda News. You've been on a trip, visited various places by exchange of experiences. The sun is sinking in the west, the old clock on the mantle shelf seemed to run ahead of itself - an hour and a half! It has seemed like a few fleeting moments! Bidding farewell to our host and hostess wishing them "Merry Christmas", with the hope that 1976 will bring us the joy of "another visit to the log cabin."

Incidentally, could anything excel a short Sunday afternoon of warm friendly hospitality such as this spent with Hugh and Coral Clark at their 1867 Centennial Log Cabin?

Permit No. 1124

End of Year  
Summary

The year 1975 has been a busy one for the council of the City of Nanticoke. They have experienced many problems in our new system of regional government. All members of the council have worked hard to find answers to those problems; to make this new system a workable one.

It is the concern of every member of council of the increased tax burden on property owners, and in many cases has caused a hardship, especially to the ones on fixed income.

Your council members are called on from time to time to deal with the personnel from the industrial area and their problems. Within the last year Texaco Oil Refinery is beginning to take place. The huge oil tanks dot the surface of the site; this when finished will be one of the largest in Canada.

The Stelco Department is moving ahead with new buildings appearing each month. The unloading dock is taking place reaching far into the Lake. The plans for the Industrial Park Area are being finalized.

We have seen the new hydro plant with its huge stacks reach skyward into the Heavens. We see the hydro corridor and the towers that dot the horizon as it winds its way through our countryside carrying the much needed energy to the public.

The new No. 6 Highway Corridor will make its appearance in the near future; to provide a service for the increased traffic of cars and trucks which will be very important as the industrial area develops. No matter where the route or location is, it will effect or disrupt some individual; be it in farming or his residential home.

In the near future, we will be experiencing the start of the New Town on the Townsend site. Here again your council will work hand in hand with the provincial government. A liaison committee has been formed to deal directly with the minister of housing; forming a better link of communication. The committee consists of Messrs. George Demetriuc, Robert Ryser and the Mayor. With this source of information available, the public will be informed and kept up-to-date on all procedures regarding the new town.

From time to time in the last two years, the planning advisory committee have dealt with many plans of subdivisions and reviewed and recommended to George Demetriuc and members of the planning advisory committee have provided an excellent source of information for the council.

The minister's freeze order has caused a hardship to many in the rural areas where expansion is necessary to their farm operations. The City of Nanticoke's regional councillors presented a brief at the regional level, asking that the restrictions be modified to be acceptable to the farming area; this was accepted by the regional council and it now has to meet with the approval of the minister.

Within the boundaries of the City of Nanticoke, we are playing the major role in the construction field. There were \$69,635,846 in permits issued in the first ten months of 1975 in the City of Nanticoke, with 98,108,518 for the entire Region. As this development takes place, the appearance of our countryside and urban centres will change. This rural quiet atmosphere, which we have enjoyed for years, will change to a bee-hive of activity, affecting people in all walks of life.

The council of the City of Nanticoke are developing a programme whereby services to the public can be upgraded and new ones introduced. Garbage pick up is now provided for the entire city. The Fire Departments are receiving new equipment which is so important to the protection of our homes. To the men providing this service, we owe a lot. I often wonder if we fully realize and appreciate the service rendered by these men night and day, rain or snow; they are always available.

The guidelines to control increases in wages which is proposed by the federal government is the concern of many, and which will affect people in all walks of life. If inflation is going to be controlled, it is the responsibility of every person to try and co-operate and not hinder, but, try to enforce the guidelines that have been proposed by the Federal Government. There is a lesson to be learnt in what has happened in New York City, in the financing of that city.

The road that lies ahead in the next few years will not be a smooth one for any council. Planning in this new era of

history, setting policies and giving priorities to the most important, is going to be an exciting experience for any Council. With the increased cost of education and many other programmes, it will be a concern to all. However, if everyone is sincere and concerned I am convinced we can develop this area to the satisfaction of everyone.

In the past year I have had full co-operation from the Council and Staff and from the Committee members at all levels; to these people, I say a sincere thanks.

To the Press, your remarks have been kind, and I appreciate the excellent coverage we have received.

May I leave this little poem or verse with you:

I shall pass through this world but once  
Any good, therefore, that I can do  
Or any kindness that I can show  
Let me do it now  
Let me not defer or neglect it  
For I shall not pass this way again.

May I take this opportunity to wish everyone a Merry Christmas and a Happy New Year.

Mayor John Pow  
City of Nanticoke

## CARBON MONOXIDE POISONING

Motorists! had the exhaust system of your car checked lately? With the cold weather of winter almost here, one of the dangers to beware when driving is drowsiness due to carbon monoxide poisoning. If your car has a faulty muffler, a leaky manifold or a bad exhaust pipe, don't postpone having it repaired. The Ontario Ministry of Transportation and Communications recommends driving with one window slightly open to help combat the danger of carbon monoxide poisoning. Get your exhaust system checked now! And Remember...a little fresh air in the car is good insurance to help keep you awake.

## LETTERS

Broomball  
nuisance  
fans

Dear Editor:

This letter is a reply to the writer of the letter last week who's grievance was the reporting of broomball games in the Jarvis Record.

The Erie Broomball League, "E.B.L." is in its third year now, and every year we have a struggle finding someone to report on our games. With much convincing we pressured someone for the last two years to do so.

This reporter is very busy with amateur sports in this area to which he has devoted much hard work. He has a job and family, none of which are connected to the games in any way. He would much rather sit in the stands and watch as a fan or perhaps devote the time to something more important.

Every Tuesday he sits through three games until midnight to take notes, then he must summarize the events for the press the best he knows how.

It is a thankless job, with no pay, yet for the last two years, the E.B.L. has turned to this man and asked him to write up our games in a manner as to help draw out fans to our games. It is my opinion that with the time the reporter has to do this job, he does it very well.

It is also my opinion that the letter last week was the joint effort of a small group of fans that make a nuisance of themselves every week, especially during the Nanticoke games. The players know that they must put up with the usual boos and hisses, and we like to see the stands full of fans, but too often the profanity reaches an unbearable level.

For men to talk that way in public is bad; but for women to talk that way is a disgrace.

A great deal of this uninhibited cheering is directed at the referees. For some unknown reason, nobody wants to referee broomball games, but this year we are lucky enough to have two men who are doing a great job. They were instructed at the beginning of the season to call many penalties in an effort to cut down on undue roughness and injuries. This request came from the executive of all teams.

The E.B.L. has two new teams which have rounded out the league to be a very competitive sport for local fans to enjoy. The players have a good time, and we don't want our night of competitive relaxation ruined by immature fans.

If any of the readers of this letter think they can contribute to the E.B.L. as reporter or referees let someone on the executive know about it because we would all appreciate any help we can get.

If not learn the rules, sit back, cheer intelligently for your favourite team and enjoy the game.

Support  
considered  
for Canada  
Coach  
Lines

Dear Editor:

There is enclosed herewith a copy of the Premier's reply to the request of The Hamilton Transit Commission made on 24th October, 1975, that the province extend financial support to the regular route services of The Canada Coach Lines, Limited on the same basis as that presently being provided by the Province for commuters on the GO-Transit services of the Toronto Area Transit Operating Authority.

Yours very truly,  
THE CANADA COACH  
LINES, LIMITED.

F. A. Cooke  
General Manager

Dear Mr. Rice:

Thank you for your letter of October 24, 1975 with reference to the financial viability of Canada Coach Lines Ltd.

To the present, we have not agreed to pay subsidy in respect of interregional services although we have intervened in the Toronto area and, through the Toronto Area Transit Operating Authority, operate inter-regional services in certain corridors. Toronto possesses special problems due to its population size, geographical area of influence and rapid growth, which are not duplicated elsewhere.

However, my Minister of Transportation and Communications, the Honourable James Snow, is reviewing this role with respect to like applications, in whole or in part, elsewhere in the Province in response to the various needs which may exist. I cannot offer you any more than this at the present time, but would assure you that the matter is under active consideration.

Yours Sincerely  
William G. Davis

Yours Truly  
A concerned player.
