

Springvale Women's Institute

Mrs. Vern Hoover entertained seventeen members and friends for the October meeting.

Mrs. W. Bradshaw welcomed all present, and the meeting opened with the repetition of the Ode, Creed, and Prayer. Mrs. Arthur Harvey, ass't Secretary, read

the minutes and current correspondence.

Members were reminded of their visit with Selkirk W.I. on Nov. 11th, also of the next meeting which will be held Nov. 20th at the home of Mrs. Wm McKeen, Hagersville.

Springvale W.I. are to be congratulated on receiving

second place award in the W.I. Fair Exhibit.

Resolutions to be voted on at the Area Convention, Nov. 13 and 14th were read and discussed, and agreed that the delegates should use their own discretion in that regard. Mrs. A Winger was named as one delegate, others to be chosen later.

Plans for a bus trip to Elmira, and surrounding Mennonite area have been finalized for Oct. 23rd next. Please be at Hagersville depot at 8:45 a.m.

Mrs. Ellen Hopper gave a complete and informative report on the Fall Rally held in September.

Mrs. Arthur Harvey, reported on the Short Course "Quilts" which she and Mrs. M. Dredge attended. The first meeting for the group work will be held Nov. 27th, at the home of Mrs. E. Hopper.

The Roll Call - my most embarrassing moment, was well responded to.

Mrs. Annie Harvey presented the motto - "The Best Things in Life are Free - take time to observe them" - very appropriate for this Thanksgiving time.

Mrs. H. Hopper took us on a travelogue of a trip they had enjoyed this -- to Moosee and back by via the Northland Express. She emphasized the work of Father Renason, an Anglican priest - who served in that northern area, in years gone by.

The meeting closed with the Institute Grace and the Queen. The lunch committee served tea and fruit breads. Mrs. Otto Crone, moved a courtesy to Mrs. Hoover, the Program and Lunch Committee for a most interesting afternoon.

MEXICAN - AMERICAN GOSPEL SINGING GROUP COMES TO HAGERSVILLE

"The Amigos" are an inspired, dynamic, Mexican-American Gospel Singing Group from Dallas, Texas, who travel nationwide and worldwide bringing the Gospel through music and song. The group began in Mexico.

David, twice gifted by his anointed speaking voice and his unusually beautiful singing voice is Lead Singer, Spokesman, and Rhythm Guitarist for the group.

His talented younger brother, Eli "Chico" Valasques is the Baritone singer, composer-arranger. The best lead guitarist in Gospel music.

Ric Reo Quimba, who plays drums, Congas, and Timbales, give the music a truly Latin flavor by combining his fantastic sense of rhythm and his zeal for God.

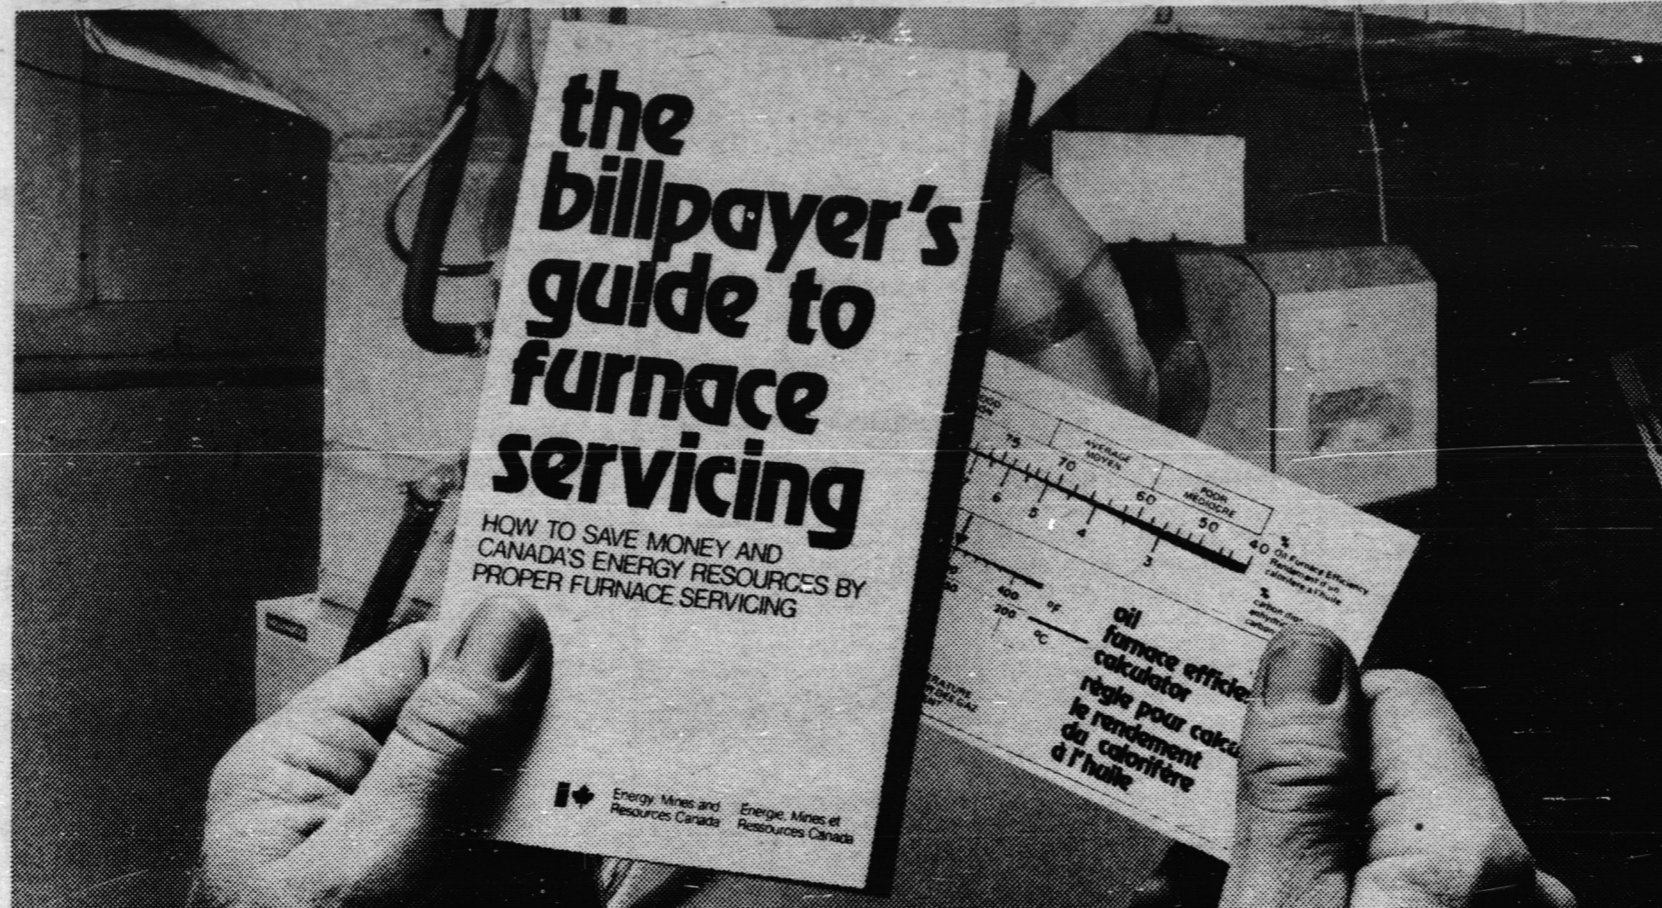

Larry Vel Squez is the cousin of David and Chico. He sings tenor and plays Base Guitar. He is very talented and radiates a depth and Spiritual beauty rarely found in Gospel music.

Dave Clint Gentry, fourth voice and pianist for the group is from Albuquerque, New Mexico. Among the many styles in Gospel music none have been compared to Clint. His style and talent are unlimited.

The AMIGOS have travelled to 24 different foreign countries bringing Gospel in song, reaching old and young alike with their latin rhythm and anointed singing. Their music blends the best in Gospel music as you have found it for years with the beauty of Latin tempo and soft Spanish voices. Singing in both Spanish and English is a refreshing change from the usual Gospel quartet.

The faith and dedication that is apparent in their testimonies, their singing, and on their faces as they sing, coupled with talent and professional ability make the "AMIGOS" a completely new and unique experience for music lovers of Gospel music.

Hear them in the Hagersville Pentecostal Church, Friday, October 17th, at 8.00 p.m. A freewill offering will be taken. Come early for a seat.

Use this calculator to measure the efficiency of your oil or gas furnace. The book explains everything that you and your serviceman should do to save fuel and money. Both free when you send in the coupon below.

How much of your heating dollar is going up in smoke?

Get your furnace in shape for winter—so you can be both warm and a little richer. You'll cut your fuel bill by as much as 25%, and help to conserve Canada's fast-dwindling energy reserves:

AS A NATION we waste more energy than some countries consume in total. We're on an energy binge that we can no longer afford. Modest cut-backs now will be easier to face than shortages and even higher prices in a few years time.

For every \$100 you spend on energy at home, more than half of it goes into heating. So your furnace is a great place to start saving.

1

Check the efficiency of your oil furnace.

Is your oil furnace working at top efficiency? Find out:

Look for a dirty flame. Lift the flap that covers the small hole on the front of your furnace. If you see black smoke coming from the tip of the flame, your burner needs adjustment. Call the serviceman.

Inspect for soot. Shut the furnace off and poke a flashlight inside the box. An accumulation of soot means it's time for a service call.

Check the barometric damper. This valve between the furnace and chimney bumps open and shut as the wind blows and as the furnace cuts in and out. If it sticks in any position, you're wasting energy.

2

Put your serviceman to work twice a year.

A thorough oil furnace check-up in summer and mid-winter can cut as much as 25% from your fuel bill. (If you have a gas furnace it should be checked once a year.)

Remember, it will take your serviceman about two hours to do a good job on an oil furnace (somewhat less on gas).

He should remove soot from the firepot, heat exchanger and pipes; check the stack temper-

ature; perhaps try an oil nozzle 10% to 20% smaller (or the lowest firing rate recommended for your furnace).

If you're paying for a complete check of the furnace and heating system, make sure you get it. Start by reading **The Billpayer's Guide to Furnace Servicing**.

This free book explains everything that you and your serviceman should do to save fuel and money. (See coupon below.) It has a complete oil and gas furnace checklist, and a calculator for determining overall furnace efficiency.

3

Lower your thermostat.

Dropping your setting from 72 to 68°F will save about 10%. If each of us saves 10%, Canada will conserve 8 million barrels of oil and 24 million cubic feet of natural gas each year.

It's time to pay the piper.

We can't live in the future as we do now. The

resources simply won't be available. Here are two facts to ponder:

- If we continue to consume at our present rate of increase, Canada will need twice as much energy in 12 years.
- The capital costs of developing new sources of energy will soar to \$110 billion over the next 10 years—an investment of about \$20,000 for each Canadian family.

It's no longer a matter of choice. *We must save energy to save ourselves.*

Free information to help us all.

TWO FREE BOOKS: The Billpayer's Guide to Furnace Servicing shows you how to save fuel by proper furnace servicing. It explains what you can do, and what your serviceman should do. Free when you send in the coupon.

100 Ways to Save Energy and Money in the Home has 160 pages—80 of them to help you get the most heating efficiency at the lowest cost.
