Use hot water wisely Save energy... Save money

Apart from home heating, a family usually consumes the most energy in producing hot water. Here are just a few small things you can do, that can add up to a considerable energy saving. Turn off hot water taps so they don't drip, fill clothes washers to match the size of the load, wait until you have a full load before using a dishwasher and remember showers usually require less hot water than baths. Try not to use more hot water than you need.

The Cascade electric water heater will give you a dependable supply of hot water, but it's up to you to use it wisely.

Asphyxiation

CRIB TOY WARNING

An eight-month old baby died in her crib recently. An investigation showed death by asphyxiation. Presumably, the infant had been playing with a small plastic rattle and had fallen face down, jamming the object into her throat. This tragic incident prompts the Ontario Safety League to once again warn parent on the dangers of leaving rattles, teething rings and small toys in a crib with an unsupervised infant. Suffocation can and does happen -- even in the interval between frequent crib checks.

Large, plush toys can also cause suffocation to the infant who has not yet developed the protective reflex action to push objects off the face. Crib toys with small parts that could easily be swallowed should be avoided, as should toys that can break, exposing sharp edges. Pacifiers with small guard shields have been banned in Canada for some time. Rings and handles of pacifiers must remain attached or be either flexible or hinged to prevent injury, should the child roll face down with the object in the mouth. However, despite these government safety precautions, parents are still warned not to hang a pacifier around an infant's neck. The string or chain can easily catch on something and strangle a struggling child.

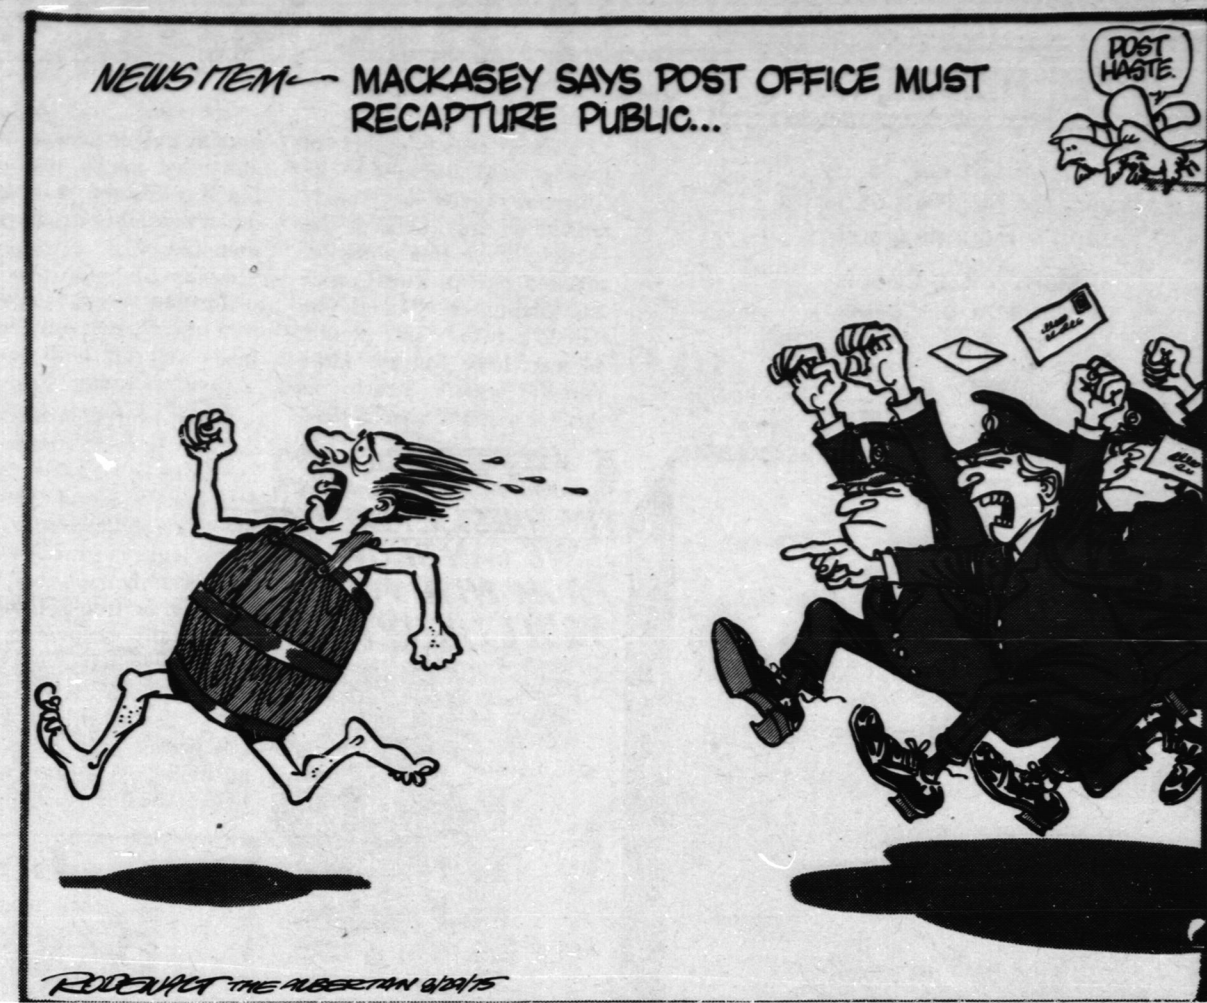

Dr. R.J. Imrie, prominent pediatrician and a director of the Ontario Safety League, said that many parents waste precious time in attempting to remove foreign objects from a baby's nose, eyes and ears, or in trying to reach their family doctor. Emergency services are available in most hospitals with doctors in attendance at all times, he noted. Dr. Imrie suggested that, if you live within 25 miles of such a service, the baby should be taken immediately for medical attention. Attempting to remove an object from an infant's nose yourself is particularly dangerous, he said. It is too easy to push the object further up the nasal passage.

In removing foreign objects in the throat, Dr. Imrie said it is important to elevate the feet so that the baby's head is lower than the hips. He suggested picking the child up by the feet and hitting its back between the shoulder blades to propel the object from the windpipe. If that doesn't remove the object, and if the child is unable to cough or breathe, try to remove it from the back of the throat with your index finger. If wheezing occurs or coughing persists, consult a physician at once.

Dr. Imrie said, however, that such emergencies are unnecessary and can be avoided if crib and teething toys are removed while the baby is left alone.

Flyers start workouts

The Hagersville Flyers of the Junior 'C' League have started workouts in preparation for the upcoming season. The workouts have been under the supervision of new coach Jim Hall. The first three workouts will have just the rookies trying out and this should give the coach a good chance to look at all the young players. After one or two cuts, last years holdovers will get into the swing of things and if there is any truth to rumors, the boys had better get in shape. There are 24 rookies out the first practice and at least a half dozen looked like they had a chance at the big club. The Flyers will have to find defencemen and hopefully another goaltender. Once the schedule has been completed the Flyers will be putting their season tickets on sale with a first come first serve basis. Earl Smith will again handle this end of the business for the Flyers as he has done in the past.

Smale blasts regional council

Simcoe Councillor Catharin Smale blasted regional council last Thursday morning for closing all committee meetings.

She said that she was opposed to the move on the principle that all committee meetings should be open. "If we go holding meetings behind closed doors then

there is no way that we can call ourselves honest," Mrs. Smale.

She then presented a motion to have the meetings of the Planning and Development Committee of which she is a member re-opened. The motion was seconded by Delhi Councillor Claire Huffman, however Regional

Chairman John McCombs could not accept the motion because of a point of order on which a two thirds majority of a council must be in favour of reconsidering a motion before it is presented.

Nine out of the seventeen councillors present voted to reconsider the motion, but because a two-thirds major-

ity was needed it was not enough.

If the councillors who are in favour of open meetings persist there is some chance that the meetings could be re-opened.

Both Mrs. Smale and Nanticoke Councillor Gordon Miller were not present at the meeting in which the committees were voted closed. Also newly appointed Delhi Councillor Vern Partidge did not vote, and there is speculation that he would vote to keep the meetings open. In the case of a tie vote Regional Chairman John McCombs has come out in favour of open committee meetings and would probably break the tie in favour of opening the committees.

Township of Norfolk Mayor Jerome VanDeSlyke was one councillor who appeared to change his mind, as he voted to reconsider the motion presented by Mrs. Smale.

"I haven't really changed my mind on the issue of committee meetings being open," said Mayor VanDeSlyke. "But I do think that if the members of a committee vote to have their own committee open to the public then I could support that."

First Meeting Of Lions

The first meeting of the Jarvis Lions Club for the 1975-76 season was held in the Community Hall with a very good turnout of members and 3 guests in attendance.

Our guest speaker, District Deputy Governor Howard Fleming (hails from Norwich garage owner and a family man and is a member of the Norwich-Otterville Club) spoke to us on "Lionism is Opportunity; that is, opportunity in helping others, the community, and himself in being a better person. Lion Howard was also asked to induct into club our two newest members, Lion Stan Blundell (sponsored by President Don Mitchell, and Lion Jim Howden (Dave Doughty) Assisting also in the induction was Lion Ray Montague who read to them the Lion Code of Ethics, Lion George Miller who read the Lion Objects and Lion Bill Snowden read what the word LION and what the letters spelled out mean. Lion Martyn Cooper ver aptly thanked our guest speaker and presented him with a token gift and a certificate of appreciation for duties well done.

By the time this report is printed, all will be aware of the Olympathon taking place on Sat. Sept. 20, sponsored by the Lions Club and Coca Cola (who by the way are donating their products to the cause and are not reaping any monetary benefits from this venture.) The purpose of this walk is to support our Olympic athletes by giving monies to help pay for their training facilities and part of the money is kept by the Club to help in the community in some project. Entry forms have been placed in several retail outlets in town.

Tennis anyone! Our special projects committee have been busy on this project and will be giving a report later on their findings. What a request but the net results will be terrific and won't we have a ball!

Dave Doughty reported on the events at the ball diamond during the summer and he has asked for help in organizing and coaching hockey teams this winter. A report was given by Lion Jack Brohman on the Bike rodeo held in Cayuga (we had some local boys and girls in the top 10). Coyne Leather dale reported on quite a successful summer at the booth and thanked all members and their gals for helping out. Does any one have a lot of extra chocolate bars and cigars around the house?

Oh, to be a winner! Lion Barry Miller was the very surprised winner of a draw for a Baby Duck and here if he didn't graciously give it to his Uncle Bob. I wonder if the election has anything to do with it?

Sometime in October there will be a large trailer in the Community Hall Parking lot. It is owned and operated by the Faith Mission of Canada and its purpose is to assist the local clergy by teaching the public school children a little bit more of the teachings of the Bible and it will be here for 5 days. More details will be in the paper at a later date.

Our not well folks are coming along quite well, meaning Lion Bud Elliott, Alena Field and Joanne Mitchell.

Health hint for the week - Streaking is good for you, it puts color in your cheeks.

Lakefront Development

cont. from page 1

"This kind of development we must look at very carefully before we let it come in."

"The other kind of development is infilling of lots, that have been purchased in the past, and the owner has been paying taxes to the township all along," said the Mayor.

"If people have been paying taxes on lots, and are prepared to meet the sanitary requirements of the region, then these people should be given the opportunity to develop these lots," he said.
