

Driving Hints

Most drivers know the rule for judging what is a safe distance to follow another car in traffic -- "Allow one car length for every 10 m.p.h. of speed." But, the Ontario Safety League emphasizes that this rule specifies the minimum safe following distance, under perfect conditions. In bad driving conditions, such as rain or ice, the distance allowance should be doubled. A "Bad condition" calling for extra stopping distance from the car ahead, arises whenever you yourself are being followed too closely by another vehicle. If an emergency occurs ahead, you have to worry about the stopping capability of your own car and also the car behind.

SUNSET

The days are getting shorter and one of the most dangerous times of day for driving is dusk, when sight distances are quite misleading. The Ontario Safety League reminds you to turn on those low-beam headlights at dusk -- not parking lights. It's the law! Be safe -- be seen!

Annual craft and hobby show

The Annual Craft and Hobby Show sponsored by the Kohler Women's Institute will be held on Friday, October the 17th, at the Haldimand Agriculture Centre from 1.00 p.m. to 9.00 p.m.

There will be a tea table and door prizes to be drawn every hour on the hour, so if you are not lucky at 2.00 p.m. you may wait around and try your luck at 7.00 p.m. and you do not need to be present to win. We will hold your prize for 30 days!

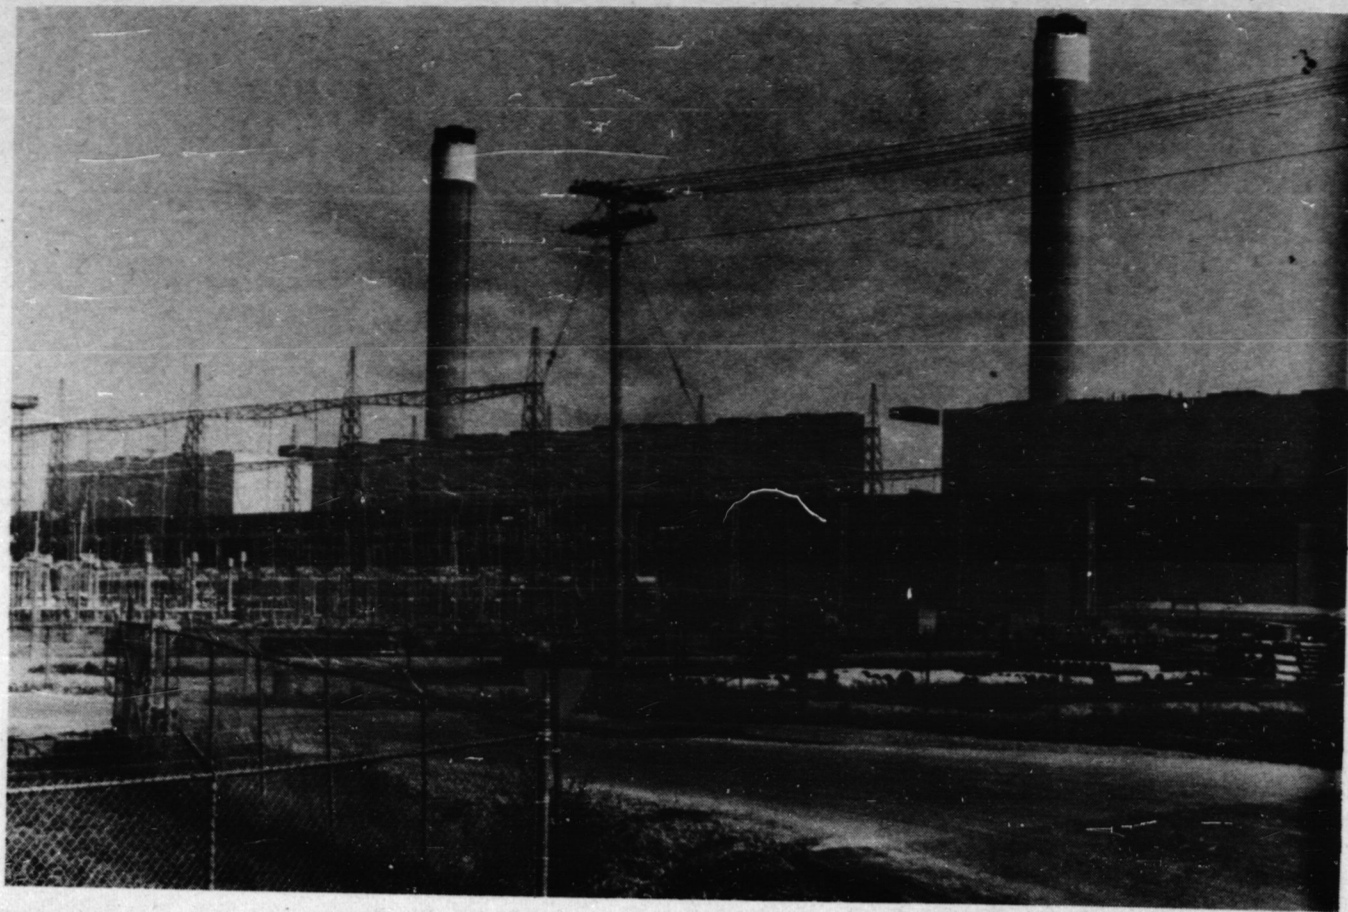

Instead of a Sidewalk Sale we will have a Hallway Sale of Autumn Bargains and Bargainettes gleaned from the attics to the cellars.

Among the many exhibitors who will be in attendance are, Mrs. Wahl from Dunnville with basket weaving and the making of straw flowers;

Mrs. Hilliard Culver, of Rainham, with floral painting and the art of plastics; Mrs. Cyril Murphy, of Dunnville, with beaded jar art-craft; Mrs. Florence Lint, of Cayuga who will be displaying flowers and woodcraft.

An interesting sale table will be in charge of Mrs. Calvin Roth, of Rainham, who will have wood products from other countries for the Self-Held Mennonite Centre Relief program.

Anyone interested in a Craft or a Hobby table for the Show is asked to contact Mrs. Marvin Link, Craft Table Convenor, for further particulars (772-5198). Come to the Show and meet the craftsmen and hobbyists, discuss with them your interest and at the same time do some of your Early-Christmas-Shopping!

Pointers from Ontario Hydro

Adequate insulation can usually reduce the size of installed heating and cooling equipment and provides a saving of up to 30 per cent on the yearly operating cost.

A 40-watt fluorescent lamp produces more light than a 100-watt incandescent bulb -- and at less cost.

Run a dishwasher only when there's a full load to be done. It can be used to store dishes and cutlery until that time. This way you'll need fewer washes and save hot water.

Ontario Hydro reports electricity demands can increase by as much as 70,000 kilowatts for every one degree rise in temperature during prolonged summer heat waves.

Housing study grant approved

A \$9,000 housing study grant for the Regional Municipality of Haldimand-Norfolk has been approved under the Ontario Housing Action Program, Housing Minister Donald Irvine announced today.

The funds will be used to examine key areas for housing development in the City of Nanticoke and the Town of Simcoe, said Mr. Irvine.

Results of the study will assist regional planning staff to co-ordinate various subdivision proposals within the context of area planning requirements.

OHAP's objectives are to accelerate housing production in selected areas and to encourage private developers and builders to market more units to families of moderate and low incomes.

The Ontario government is inviting proposals from groups of architects and engineers for the design of a 30-unit senior citizens' apartment building which would be heated by the sun.

Scheduled for a construction start in Aylmer in the spring of 1976, the two-

storey building will be the first multi-unit structure in Canada to be designed for heating by the sun. The government is also involved in an experimental solar heated single-family house which is being built in King Township, just south of Holland Marsh.

Provident House, as the King Township is known, was designed by F.C. Hooper and John Hix. It is being built by McClintock Homes and is scheduled for construction service for the completion by January 15.

Ontario's solar heating projects are an activity of partnership involving 11 government ministries within an energy management program co-ordinated by the Ministry of Energy. The ministry oversees the program and acts as a catalyst for action by government,

industry and the public to reduce, by at least one-third Ontario's increasing consumption of energy.

The Ministry of Housing is represented on the energy team by the Ontario Housing Corporation which serves as the building arm to direct the development of solar-heated building projects.

Architects and engineer interested in the senior citizen solar heating design competition must register with Ontario Housing Corporation by October 7, 1975. The deadline for proposal is November 12, 1975. Three preliminary proposals will be funded to the preliminary design stage. A final design team will then be chosen to provide total design and construction service for the project.

Lambs Corners

First Meeting

The first meeting of the Lamb's Corners 4-H Club was held on Tuesday, Sept. 9 at 7:30 p.m. at the home of Mrs. Leona Fess. The meeting was opened with the 4-H pledge. Our leaders Mrs. Leona Fess and Mrs. Velma Weaver welcomed each of us and generally outlined the requirements of this club.

We discussed and took down notes on the colour wheel, colour harmony and proportion. We were also given material for our Sampler and "Learning Stitches" article. For next week we should have decided the colours we are going to use and what we are going to make.

We then had the election of officers: Pres.: Ruth Hobbs, Vice Pres.: Peggy Marshall, Press Reporter: Diana Smuck

Second Meeting

The second meeting was held on Wednesday, Sept. 17 at 7:30 p.m. at the home of Mrs. Leona Fess. The meet-

ing was opened with the 4-H Pledge and the Roll Call. "The Learning Stitches article I have chosen and why" was answered by all. We then discussed the

CWL meets

Mrs. Eugene Montague, President, chaired the Sept. C.W.L. meeting held in St. Mary's church hall. The League prayer was recited by a large number present.

Several reports were given, and many business items were discussed.

A letter was read from the Sacred Heart Program Director thanking this Parish Council for its donation towards the support of their work.

The mission Stamp Bureau at Willowdale, Ont., requests stamps for the Children's Stamp Guild.

The annual C.W.L. Bazaar

will be held on Friday, No 21st, in St. Mary's church hall, Hagersville.

An invitation was extended to the members to attend the Arts and Crafts Display on Sat., Oct. 25th, at the Simco Composite Gymnasium. Requests were asked if local ladies to submit articles for this display, such as: ceramics, novelties, etc.

Fr. Raymakers, our Director, gave a short talk on a trip to his home in Holland this summer.

The meeting adjourned with the Act of consecration being recited, and a luncheon was served by the committee during the social hour.

Community college staff gets raise

TORONTO--The teachers, counsellors and librarians in Ontario's 22 community colleges today overwhelmingly ratified a one-year collective agreement which gives salary increases of 12.5 per cent to the highest paid employees and a 32 per cent to the lowest paid categories.

The agreement also sets out teacher workloads and establishes the seniority system in lay-offs and recall. In addition, the 5,500 teachers -- members of the Civil Service Association of Ontario -- won re-classification of all grades of teachers, except for instructors, to the highest grade known as teaching master.

The agreement, approved by a vote of 3425 to 527 at meetings held at all 22 colleges, sets a minimum rate of \$12,000 per year for teaching masters and a maximum of \$24,000 through 16 steps. In addition, co-ordinators will receive one or two steps above scale, depending upon their responsibilities.

Instructors will be paid between \$10,000 and \$16,850 per year on a nine-step scale. Librarians will receive a minimum of \$12,200 with a maximum of \$19,000 for the librarian 2 classification.

Bruce McColl, chairman of the CSAO negotiating team, said it was a "milestone." The previous agreement, which expired August 31, was a result of an arbitration award handed down in June of this year, after two years of largely fruitless negotiations.

Another bone of contention, teacher workload, was resolved under a formula

based on the arbitration board award, with teachers being able to appeal to joint review committees at both the college and province-wide levels.

He said the agreement was negotiated under new legislation which offered the teachers a choice of routes to finality, had a deadlock occurred. "This new legislation, which allows community college teachers the right to choose strike action, no doubt had a bearing on the outcome of the negotiations and the speed with which they progressed."

"Both sides made every attempt to reach a settlement, and I believe this agreement proves that collective bargaining does work if it is attempted within the framework of full and a free collective bargaining."

Last year the community college teachers boycotted arbitration and threatened illegal strike action in an attempt to hasten negotiations.

"This agreement proves that when both parties at the negotiating table have equal rights and equal responsibility, they show equal respect for each other at the bargaining table, and this usually results in a collective agreement," Mr. McColl said.

He said the terms of the collective agreement protect the teachers from the effects of rampant inflation and also provide a catch-up or real increase for the lowest paid teachers who most feel the effects of inflation.

"It is a good agreement and serves the best interests of everyone involved," Mr. McColl said.

The Selkirk Scene

Mrs. Gladys Smelser spent the past week in Hamilton babysitting her grandchildren.

Mrs. Rose Melenbacher spent a terrific time at the French River with Mr. and Mrs. Russell Hurst of Selkirk.

Mrs. John Winger, a lifetime resident of Selkirk will be sadly missed and always remembered. A large funeral was held at Fisherville with a lovely lunch afterwards at Faith Centennial United Church in Selkirk.

Visitors to Miss Jean Hoover of Selkirk were Ida Stocumbe, Shirley Willis and Hester Smith all of Pt. Dover.

Floyd and Doris Held are proud to announce the birth of their first grandson, Daren Nie. The proud parents are Carolyn and Jim Nie, and a brother for Karen.

Visitors this week to the home of Mr. and Mrs. Clement Williams on Friday were Mr. and Mrs. James Napper from Nanaimo British Columbia and on Sunday Mr. and Mrs. Will French from Selkirk 4H Meets.

SELKIRK 4H MEETS

The 2nd meeting of the Selkirk 4H was held at the Selkirk Centennial Hall on Wednesday, September 17, 1975 at 7 p.m. with 6 members present. We open-

ed with the pledge. The minutes of last weeks meeting were read and accepted by Debbie and secretary is Lori. This weeks secretary is Debbie Williams. We then had the roll call. Mrs. Williams gave us a treasurer's report. We voted on our club name. Our club name is the Selkirk Nimble thimbles. We also voted on the colour of

our duo-tangs. They are going to be white and if we can't get white, we will get red. Our next meeting is Wed. Sept. 24 at the hall at 7 p.m.

We reviewed color and traced our design on a paper bag. Mrs. Williams talked about tracing motifs on material and on learning stitches article. Next week we are to

have our pattern on our material, decide what motif we are doing, trace the motif on the bag, and then transfer the motif to the material. Mrs. Hare showed us how to pull a thread out of the skein of floss. Mrs. Williams showed us to thread a needle. Mrs. Hare and Mrs. Williams showed us how to do the back stitch. The meeting was then adjourned.

Hunting Safety

Several years ago, the Ministry of Lands and Forests, now known as the Ministry of Natural Resources, laid the foundation for a sound method of creating a safe environment in which hunters can enjoy their sport, by initiating the Hunter Safety Training Program. Responsible for conducting the program, Ontario's rod and gun clubs are to be congratulated on the thoroughness with which they carried it out. Hunting-accidents reduction in the province is exceptional.

To further improve the statistics, the Ontario Safety League requests experienced hunters to share their knowledge this fall with the younger men, many of whom will be shouldering a gun on their first hunt. They need

your guidance and wisdom in gun handling. Besides all the points you can teach them on gun maintenance, they need to know the importance of: -- Treating every gun as if it were loaded, until they personally inspect the gun to make certain it isn't.

-- Pointing the muzzle in a safe direction, so there is no possibility of it pointing at a person or member of a hunting group.

-- Identifying the target as game. Inexperienced hunters should study pictures to develop a clear idea of the outline and features of the game they intend to hunt.

-- Practicing self-control to insure that all actions ingun handling become habit.

-- Deciding on zones of fire that each hunter will use in

order to prevent the disaster of firing on a companion -- Unloading the gun before putting it into a car or boat, climbing a fence, stopping for lunch or entering camp.

-- Sitting close in a blind to prevent one hunter from getting in front of another hunter's muzzle.

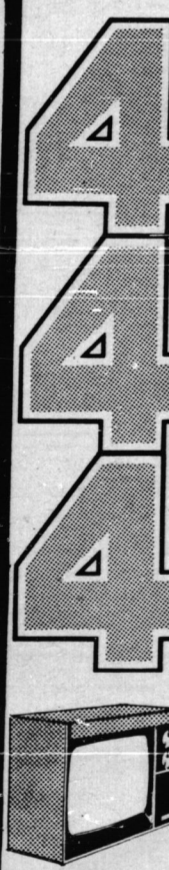

-- Resting a gun in such a position where the movement of a boat or dog will not cause it to fall and discharge accidentally.

-- Walking cautiously, with shooting finger away from the trigger guard, so that a trip, slip or fall will not discharge the gun.

The Ontario Safety League agrees that the fall is a great time of year for outdoor sports activity. The League wants you to live to enjoy it.

For the October 2nd draw, Wintario announces

Four times the fun for a buck!

Separate "Big Prize" numbers

Starting with the October 2nd draw four separate winning numbers will be drawn instead of one. That means four times the fun and excitement every draw!

times as many prizes

In addition to the \$100,000 top prize, there will be a new \$50,000 prize and two new \$25,000 prizes and an increase in the smaller cash prizes to over 12,000 per draw.* But tickets stay at just \$1.

times as many chances to win

With four winning numbers being drawn instead of one, every Wintario ticket you buy will give you four separate chances to be a big winner!

Be there! See every draw live at 10:30 P.M. on the Global Television Network and selected Northern stations. (Check your local TV listing.) Share in the fun.

Tickets on sale now! Four times the fun for a buck!
