

How to Search and Use These Files

Arrangement:

This “database” contains 21,618 un-indexed computer files. The majority of these files are *The Jarvis Record*, and its evolution into *The West H Record* (for two issues), then *The WH Record*, before once again being known as *The Jarvis Record*. It also contains files of *Port Rowan News* and *Tweedesmuir History* files. Files have been named using the numerical format of year/month/day/page, example: 1882_06_24_p02, and arranged in the following manner to facilitate location of information. *Of note to genealogists, the majority of obituary, birth and marriage announcements are on the front page of the paper, particularly in the early years.*

- Title of Record
 - Files by decade
 - Files by year
 - Files by month
 - Files by day of issue

Missing Issues:

There are many missing and incomplete issues. See Chart below for a complete list of missing issues.

Tweedesmuir History Files

These images were digitized by the Jarvis Library Guild.

Many files were scanned sideways, and need to be rotated for comfortable viewing. To rotate the images (when the top of the image is at the left hand side of the screen):

1. At top left of computer screen chose **View**.
2. Select the option **Rotate View**.
3. Select the option **Clockwise**.

This will need to be done for each individual file as it is opened for viewing.
