**Use hot water wisely**  
**Save energy...Save money**

Apart from home heating, a family usually consumes the most energy in producing hot water. Here are just a few small things you can do, that can add up to a considerable energy saving. Turn off hot water taps so they don't drip, fill clothes washers to match the size of the load, wait until you have a full load before using a dishwasher and remember showers usually require less hot water than baths. Try not to use more hot water than you need.

**Cascade**

The Cascade electric water heater will give you a dependable supply of hot water, but it's up to you to use it wisely.

The amount still owing on the Port Rowan Medical Centre has been substantially reduced. With proceeds amounting to almost \$6000 from the NHL Old Timers' Benefit Hockey Match at Langton, and with all payments due this year on pledges now completed, the bank loan is down to \$13,500. How is your summer going? Are you taking time to notice the beauty along

your way? or are you too busy to watch the colours of the sunset, and too tired at dawn to appreciate the beginning of a new day, filled with bird song, and with all of this God sent us a wonderful rain just when we needed it. It is still the best irrigation system to be had. Everything looks so fresh again, with the dust washed off.

The children are out of school again, and headed in different directions, some to camp some with friends or relatives for summer holi-

days. For the less fortunate however there is always work to be done. These are the ones who learn that life is not all fun and games, and the ones who find that in the long run, something earned is always appreciated more.

Life is so short. We must take time out for the simple pleasures that God has provided. Like a chair in the shade of the old maple tree, a glass of cold lemonade, and the voice of the mother robin talking to her young in the nest overhead.

We are having a nice warm summer like the ones we used to have, and the crops around here sure look promising and in July there comes a sort of lull before the harvest commences and what an appropriate time with the heat and all.

Our old friend the mosquito waits for the sun to set, and then suddenly becomes very thirsty. Thus he knows that sooner or later he will win out and have the outdoors to himself because his unwilling blood donors have left.

Craig Fields and family on July 23 from Malta, in the Maltese Islands, will be Mrs. Mavis Vella Bonnia for several days. She is a teacher there in Malta.

Rev. J. S. Lowden returned home from London hospital on Thursday where he was treated and released, and is now resting at home. Visiting with Richard Fields on Saturday was Mr. and Mrs. William Robertson of Hamilton, and their friends, who are planning a trip to Aberdeen, Scotland, in September.

There was a social evening in the Community Hall here on Tuesday evening for Mr. and Mrs. William Griggs, whom were recently married here. This was sponsored by the New Horizon club. Mrs. Craig Fields attended a shower for Jill Jewell at the home of Mrs. William Philip. Visiting with Mr. and Mrs.
