

Tweedsmuir History Files

These images were digitized by the Jarvis Library Guild.

Many files were scanned sideways, and need to be rotated for comfortable viewing. To rotate the images (when the top of the image is at the left hand side of the screen):

1. At top left of computer screen chose **View**.
2. Select the option **Rotate View**.
3. Select the option **Clockwise**.

This will need to be done for each individual file as it is opened for viewing.
